Putting the Declaration into action:

Programming areas

2011 Declaration: Targets and elimination commitments

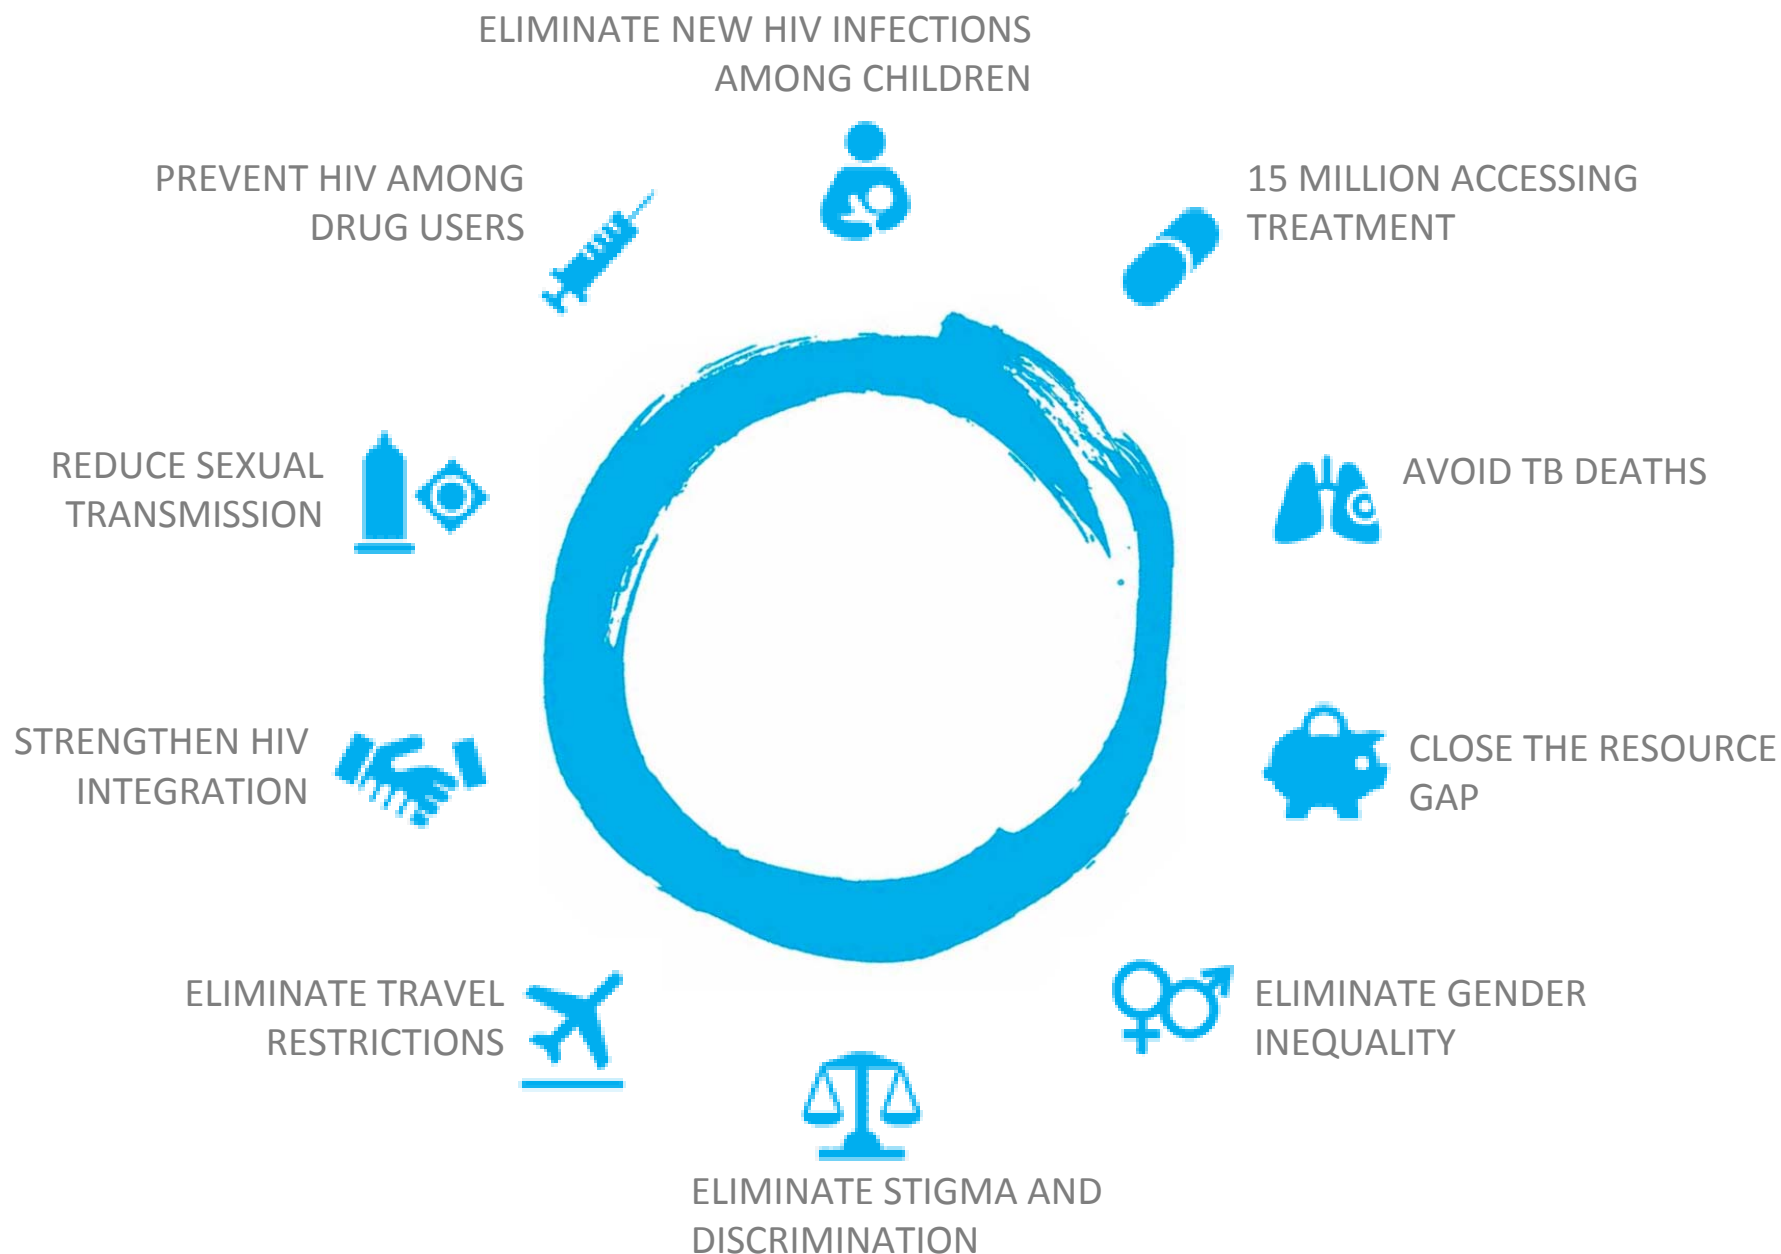

Reduce sexual transmission by 50%

- Priority package targeted high impact interventions – right place, right population, right interventions
- UNAIDS and partners:
 - Intensifying action in high impact countries
 - Undertaking modes of transmission analyses to inform prioritization
 - Brokering strategic alliances to reprogramme
 - Providing support for scaling-up
 - Supporting local & community leaders

2011 Declaration: Targets and elimination commitments

Monitoring and accountability

- Revised set of indicators – Global AIDS Progress Reporting
- WHO, UNICEF & UNAIDS support countries to use an integrated tool to report on consolidated set of indicators
- Next round of reports due 31 March 2012
- Data provides basis for global reporting on various commitments including annual UN Secretary-General reports
- Data will be publically available on AIDSInfo

Moving forward to reach our goals

- Political Declaration goals provide a powerful beacon
- Stakeholders are exercising strong leadership
- 1,114 remaining days on our collective journey to save millions of lives by 2015
- No time to ease up
