

TARGETS AND INDICATORS

Progress towards the targets in the UN General Assembly 2011 Political Declaration on HIV/AIDS will be monitored using the following indicators. Some indicators may track multiple targets.

Target 1.

Reduce sexual transmission of HIV by 50 per cent by 2015

Indicators for the general population

- 1.1 Percentage of young women and men aged 15–24 who correctly identify ways of preventing the sexual transmission of HIV and who reject major misconceptions about HIV transmission*
- 1.2 Percentage of young women and men aged 15–24 who have had sexual intercourse before the age of 15
- 1.3 Percentage of adults aged 15–49 who have had sexual intercourse with more than one partner in the past 12 months
- 1.4 Percentage of adults aged 15–49 who had more than one sexual partner in the past 12 months and who report the use of a condom during their last intercourse*
- 1.5 Percentage of women and men aged 15–49 who received an HIV test in the past 12 months and know their results
- 1.6 Percentage of young people aged 15–24 who are living with HIV

Indicators for sex workers

- 1.7 Percentage of sex-workers reached with HIV prevention programmes
- 1.8 Percentage of sex workers reporting the use of a condom with their most recent client
- 1.9 Percentage of sex workers who have received an HIV test in the past 12 months and know their results
- 1.10 Percentage of sex workers who are living with HIV

Indicators for men who have sex with men

- 1.11 Percentage of men who have sex with men reached with HIV prevention programmes
- 1.12 Percentage of men reporting the use of a condom the last time they had anal sex with a male partner
- 1.13 Percentage of men who have sex with men that have received an HIV test in the past 12 months and know their results
- 1.14 Percentage of men who have sex with men who are living with HIV

Target 2.

Reduce transmission of HIV among people who inject drugs by 50 per cent by 2015

Indicators

- 2.1 Number of syringes distributed per person who injects drugs per year by needle and syringe programmes
- 2.2 Percentage of people who inject drugs who report the use of a condom at last sexual intercourse
- 2.3 Percentage of people who inject drugs who reported using sterile injecting equipment the last time they injected
- 2.4 Percentage of people who inject drugs that have received an HIV test in the past 12 months and know their results
- 2.5 Percentage of people who inject drugs who are living with HIV

Target 3.

Eliminate mother-to-child transmission of HIV by 2015 and substantially reduce AIDS-related maternal deaths¹

Indicators

- 3.1 Percentage of HIV-positive pregnant women who receive antiretrovirals to reduce the risk of mother-to-child transmission
- 3.2 Percentage of infants born to HIV-positive women receiving a virological test for HIV within 2 months of birth
- 3.3 Mother-to-child transmission of HIV (modelled)

Target 4.

Have 15 million people living with HIV on antiretroviral treatment by 2015

Indicators

- 4.1 Percentage of eligible adults and children currently receiving antiretroviral therapy*
- 4.2 Percentage of adults and children with HIV known to be on treatment 12 months after initiation of antiretroviral therapy

Target 5.

Reduce tuberculosis deaths in people living with HIV by 50 per cent by 2015

Indicators

- 5.1 Percentage of estimated HIV-positive incident TB cases that received treatment for both TB and HIV

Target 6.

Reach a significant level of annual global expenditure (US\$22–24 billion) in low- and middle-income countries

Indicators

- 6.1 Domestic and international AIDS spending by categories and financing sources

Target 7.

Critical enablers and synergies with development sectors

Indicators

- 7.1 National Commitments and Policy Instruments (NCPI) (prevention, treatment, care and support, human rights, civil society involvement, gender, workplace programmes, stigma and discrimination and monitoring and evaluation)
- 7.2 Proportion of ever-married or partnered women aged 15–49 who experienced physical or sexual violence from a male intimate partner in the past 12 months
- 7.3 Current school attendance among orphans and non-orphans aged 10–14*
- 7.4 Proportion of the poorest households who received external economic support in the past 3 months

* Millennium Development Goals indicator

¹ *The Global Plan Towards the Elimination of New HIV Infections Among Children by 2015 and Keeping their Mothers Alive* defines this target as:

1. Reduce the number of new HIV infections among children by 90%
2. Reduce the number of AIDS-related maternal deaths by 50%

MEASURING PROGRESS

United Nations Member States have made a series of commitments to respond to the AIDS epidemic. This document lists the indicators that will help the world to measure progress towards these targets.

In June 2011, the 65th Session of the United Nations General Assembly reviewed progress made in the AIDS response since the 2001 Declaration of Commitment on HIV/AIDS and the 2006 Political Declaration on HIV/AIDS. The Member States adopted Resolution 65/277, Political Declaration on HIV/AIDS: Intensifying our Efforts to Eliminate HIV/AIDS. This historic agreement renewed previous commitments and set concrete targets for 2015.

Data on these and selected other indicators are accessible through the AIDSinfo online database, available at www.AIDSinfoOnline.org

Data are collected from Member States through biennial Country Progress Reports due on 31 March, 2012.

These and other data will form the basis for annual reports of the United Nations Secretary-General on progress made in the global AIDS response. The data will also be presented in reports of UNAIDS and other UN entities.
