

ANNEX 1. Proposed wireframes for AIDSinfo 4.0

To better address the content needs of its users, the data in AIDSinfo will now be available in four (4) geographical levels: global, regional, national, and sub-national levels.

Global level

The wireframe illustrates the layout for the Global level of the AIDSinfo 4.0 interface. At the top right is a search box. Below it is a navigation bar with various icons representing different health topics. The header section includes the AIDSinfo logo and the text 'EPIDEMIOLOGICAL STATUS' and 'UNAIDS estimates of key HIV statistics'. A navigation bar below the header has four tabs: 'Global', 'Regional', 'National', and 'Sub-national'. The main content area is divided into a sidebar on the left and a main display area. The sidebar contains an 'Indicator selector', a 'Time period selector', and a 'Factsheet(PDF) Share' button. The main display area is split into two sections: the top section contains a 'GRAPH (depicting global data)' with 'PDF' and 'PNG' download links, and the bottom section contains a 'DATA TABLE (corresponding to the graph above)' with 'PDF', 'XLS', and 'CSV' download links.

- Selecting an indicator on the left sidebar would change the graph and data table depicted on the main section
- The time period selector allows the user to change the range of years displayed on the graph and data table
- Factsheet(PDF) downloads all the graphs and data tables for the current goal/topic. The “PDF” and “PNG” links download the graph in the corresponding format. Similarly, the “PDF”, “XLS” and “CSV” links in the Data Table download the data to the specified format.

Regional level

Search box

				
	EPIDEMIOLOGICAL STATUS <small>UNAIDS estimates of key HIV statistics</small>			
	Global	Regional	National	Sub-national
Indicator selector	MAP (with regional boundaries and data)			PDF PNG
Year selector				
List of regions				
Factsheet(PDF) Share	GRAPH			PDF PNG
	<p>If no region is selected,</p> <ul style="list-style-type: none"> Show a graph comparing regional data, corresponding to the indicator and year selected <p>If a region is selected,</p> <ul style="list-style-type: none"> Show a line graph of selected region's data over time (if applicable) Graph the data of countries in that region corresponding to the indicator and year selected 			
	DATA TABLE			PDF XLS CSV
	<p>If no region is selected,</p> <ul style="list-style-type: none"> Show a table of regional data for all years, corresponding to the selected indicator <p>If a region is selected,</p> <ul style="list-style-type: none"> Show a data table for countries in that region for all years, corresponding to the selected indicator 			

- The year selector affects the data in the map and graph. The data table at the bottom shows all available years.
- Factsheet(PDF) downloads all the maps, graphs and data tables of the current goal/topic for the selected region. The "PDF" and "PNG" links download the map or graph into the corresponding format. Similarly, the "PDF", "XLS" and "CSV" links in the Data Table download the data into the specified format.

National (country) level

Search box

				
	EPIDEMIOLOGICAL STATUS <small>UNAIDS estimates of key HIV statistics</small>			
	Global	Regional	National	Sub-national
Indicator selector				PDF PNG
MAP (with national data)				
Year selector				
<div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 0 auto;">Filter country</div>				
List of countries				GRAPH PDF PNG
<p>- Only appears if a country is selected. Graphs could either show disaggregated country data for the selected indicator and year or show country data over time for the selected indicator.</p>				
DATA TABLE PDF XLS CSV				
<p>If no country is selected,</p> <p>- Data table of all countries for the selected indicator is displayed.</p> <p>If a country is selected,</p> <p>- Data tables corresponding to the graphs above.</p>				
Factsheet(PDF) Share	Data Snapshot <ul style="list-style-type: none"> Only appears if a country is selected and if there is enough data for the topic to highlight (e.g. HIV and AIDS Estimates) 		Contacts <ul style="list-style-type: none"> Only appears if a country is selected 	

- Factsheet(PDF) downloads all the maps, data snapshot, contacts, graphs and data tables of the current goal/topic for the selected country. The “PDF” and “PNG” links download the map or graph into the corresponding format. Similarly, the “PDF”, “XLS” and “CSV” links in the Data Table download the data into the specified format.

Sub-national level

		Search box			
AIDSinfo					
	EPIDEMIOLOGICAL STATUS UNAIDS estimates of key HIV statistics				
		Global	Regional	National	Sub-national
Indicator selector					PDF PNG
MAP (with subnational data; zoomed to country-level)					
Year selector					
Country selector					PDF PNG
GRAPH					
<ul style="list-style-type: none"> - Only appears if a sub-national area is selected. Graphs could either show disaggregated sub-national data for the selected indicator and year or show data over time for the selected indicator. 					
List of subnational areas					PDF XLS CSV
DATA TABLE					
If no sub-national area is selected, <ul style="list-style-type: none"> - Data table of all sub-national data for selected indicator is displayed. 					
If a sub-national area is selected, <ul style="list-style-type: none"> - Data tables corresponding to the graphs above. 					
Factsheet(PDF) Share					

- Factsheet(PDF) downloads all the maps, data snapshot, contacts, graphs and data tables of the current goal/topic for the selected country. The “PDF” and “PNG” links download the map or graph into the corresponding format. Similarly, the “PDF”, “XLS” and “CSV” links in the Data Table download the data into the specified format.
