

**RFP-2014-32**  
**HIV this month – Technical Editor**  
**Replies to questions received**  
**24-November-2014**

1. Is this a new consultancy or has the role been filled previously by a consultant?

Answer: No, it is not a new consultancy. It was previously filled by a small team of consultants.

---

2. Who is the intended audience of HIV This Month?

Answer: Original audience is UNAIDS staff at all levels and in all regions; now we are expanding the reach of HTM to serve co-sponsors, programme staff in countries, activists, students and academics. Anyone interested in a systematic digest of what is being published in the scientific literature.

---

3. Will the consultant have access to UNAIDS' online library of journals and search engines?

Answer: No. The consultant will need to be able to access the literature independently on publicly available search engines or those he/she already has access to. UNAIDS on occasion, may assist in accessing a full-text article at the final stages of article selection and review if it is accessible to UNAIDS.
