1. INTRODUCTION

1.1 Objective of the RFP

The purpose of this Request for Proposal (RFP) is to enter into a contractual agreement with a successful bidder and select a suitable contractor to carry out task of Technical Editor for the HIV This Month (HTM) digest at the UNAIDS Science Now, for a period of 12 months with a possible extension of another 12 months depending on performance and budget availability.

The new UNAIDS Science Now where the HTM digest is hosted, aims to become the “go to” place for all of UNAIDS Geneva and field staff, co-sponsor organization staff, national AIDS offices, research institutions and possibly university students with an interest in HIV. HTM will contain abstracts or summaries of articles and reviews from scientific journals that are carefully filtered from a selection of more than a thousand articles and reviews over a period of one month. The HTM will also have occasional A4 page-long Features from guest editors.

UNAIDS is an organization that is dependent on the budgetary and extra-budgetary contributions it receives for the implementation of its activities. Bidders are therefore requested to propose the best and most cost-effective solution to meet UNAIDS requirements, while ensuring a high level of service.

For more information about UNAIDS please consult our website www.unaids.org.

1.3 Work to be performed

1.3.1 Key requirements

Background:

The Office of the UNAIDS Science Panel has been providing UNAIDS staff and beyond the most recent HIV science and relevant discussions through the UNAIDS Science Now platform. The monthly digest HIV This Month (HTM) provides access to what's new in scientific journals with reviews from our editors.

The UNAIDS Science Now site where the HTM digest is hosted, is slowly becoming the “go to” place for all of UNAIDS Geneva and field staff, co-sponsor organization staff, national AIDS offices, research institutions and possibly university students with an interest in HIV. HTM contains abstracts or summaries of articles and reviews from scientific journals that are carefully filtered from a selection of close to a thousand articles and reviews over a period of one month.

UNAIDS is currently outsourcing this task after a previous competitive process at <http://www.unaids.org/en/aboutunaids/workatunaidssecretariat/requestforproposals/2013-03>

The previous RFP included searching for relevant HIV research and review articles, selecting and trimming them down to a maximum of 20 per issue and writing editor's notes. In addition to the previous terms, the current RFP includes uploading of the final HTM texts on the sciencenow.unaids.org website after final UNAIDS clearance, searching and compilation of HIV and PrEP science news, twice monthly and once monthly, respectively.

To access previous issues of HTM, go to <http://sciencenow.unaids.org/posts>

The Office of the UNAIDS Science Panel, through HIV This Month seeks to continue to provide regular and frequently updated, relevant scientific information to enable UNAIDS staff to have a better-informed position on specific issues including those related to the 10 HLM targets which follow:

1. Reduce sexual transmission
2. Prevent HIV among injecting drug users
3. Eliminate new infections among children and keep their mothers alive
4. 15 million have access to treatment
5. Avoid TB deaths
6. Close the resource gap
7. Eliminate gender inequalities
8. Eliminate stigma and discrimination
9. Eliminate travel restrictions
10. Strengthen HIV integration

Access to current and relevant scientific information on a regular basis will translate to a better and more appropriate response to end the HIV epidemic.

This consultancy will be commissioned by the Office of the UNAIDS Science Panel to support the production and online publication of the once-a-month HIV This Month digest.

The provider is expected to exhibit technical expertise in the provision of technical commentaries/editorials on specific themes including those related to the 10 HLM targets and the wider clinical and social science agenda that reflect UNAIDS' interests, as needed.

This will require excellent editorial skills as well as an understanding of the topics likely to be of interest to UNAIDS and programme based staff.

The tasks that are expected to be undertaken as part of this contract will include:

EVERY MONTH:

Searching:

1. Search for HIV-related articles in the UNAIDS priority areas, in appropriate scientific journal databases using search terms such as HIV and AIDS, to compile a "long list" of HIV papers. The search results are to be exported to an excel table.
2. Search for news items in appropriate scientific journal databases, in core/high impact journals, from the key journals' news/editorials/letters, and to compile an excel sheet of news items on a fortnightly basis.

HIV News Items:

1. Scan the received news item tables on a fortnightly basis, to get an impression of what is being discussed or debated. Select the most relevant to put into a shortlist.
2. Keep the UNAIDS team updated on subjects of discussion and debate, by sending them, fortnightly, an excel table containing links to the journals with the relevant news articles, letters and editorials.

PrEP specific research, incl basic science and news Items:

1. Search for PrEP specific research articles, including basic science and news items in appropriate scientific journal databases, in core/high impact journals, from the key journals' news/editorials/letters, and to compile these in an excel sheet on a once monthly basis.
2. Keep the UNAIDS team updated on PrEP by sending them, once monthly, an excel table containing links to the journals with the relevant research, news articles, letters and editorials.

Selecting HIV papers to compile a medium list:

1. Select around 100 abstracts covering one month, from the "long list" of HIV papers, for compilation into a table in excel format, to form a "medium list" of papers.
2. Send this list to the editors to review.

Selecting HIV papers to compile a short list:

1. Review the "medium list" table with approximately 100 short-listed abstracts and select about 15 - 20 to be reviewed in depth and featured in the HIV this month digest.

2. Select the 15-20 abstracts based on selection criteria below, paying particular attention to the last 6 issues (when applicable) to avoid any duplication of previously reviewed articles.

Selection Criteria:

- Prioritise exciting titles and subjects
- Give extra weight to articles in high impact journals
- Give special consideration to regional medical journals
- Give more weight to systematic review articles and randomized control trials
- Overall the selection should include high impact and exciting novel research, should be geographically balanced and should cover a wide range of research topics.
- Identify articles by single authors, by commercial companies, by UNAIDS or co-sponsoring organisations and exclude those that might be biased or have a conflict of interest.

3. Decide whether or not to retain each abstract in the line-up. Factors to consider include number of articles in that category (based on past issues, strength of the abstract's content, what is currently in the limelight, etc.)

Finalization of short list of HIV papers:

1. Prepare the excel file with the "short list" of about 15 - 20 papers, with online links to the abstracts selected for inclusion in the monthly digest (approximately 15 - 20 items per month) containing
 - publication data
 - PMID
 - DOI
 - PubMed Link/abstract link
 - full-text link when available
 - the abstracts themselves
 - the HLM target
 - subtopic category
 - the country/ies and region/s where data/study originates from for use in the final selection upload
2. Check there are no duplications of papers selected for review from previous months
3. Send monthly excel table to UNAIDS with shortlist of selected papers with above links and information.

Editor's Notes:

1. Allocate short listed papers to associate-editors to be reviewed
2. Read full text articles of the selected abstracts
3. Underline terminology to be bolded in the abstract to make the abstract quick to scan and digest by readers with little time.

4. Assign each article to one major category and sub-category from the current list of topic-tags.
5. Write Editor's Notes, including reference to previous HIV this month issues as appropriate. The Editor's notes are the most vital part of the consultancy; they should be aimed at a broad readership and should capture in easily understood language the key points of the article as well as setting the results into the wider context and reflecting on their significance. The language used should be consistent with UNAIDS terminology guidelines. To access the Guidelines and to view previous issues of HTM go to <http://scienzenow.unaids.org>
6. Comments can include how important the results are for people working in the field, where the findings situate in the broader picture of scientific development in a specific area, their relevance to policy and programming, reference to methodological strengths or weaknesses to build research literacy, etc.
7. Write 'teaser' descriptions on first page for each abstract. The 'teaser' is a one sentence headline that should encourage readers to read the abstract, the editor's note and to go to the full text of the paper if necessary. Strive to make a 'tweetable' headline.
8. Editors to check reviewers' notes and teaser title.
9. Editors to choose a "top pick" under each UNAIDS target for each monthly digest and start the section of the digest with the lead item. The leads should be the most important topic in that section. When choosing the lead, take into account how important the article is, what is currently being discussed in the media, etc.

Template compilation:

1. Fill in template with reviews and author details.
2. Ensure all countries and regions are included in the template for the shortlisted papers. Ensure all papers have been correctly allocated to a topic and sub-topic. Ensure all links to abstracts (and free full-text articles, if applicable) work.
3. Undertake further quality check of completed template. Check terminology used in the editorial reviews as per the UNAIDS terminology guidelines and the WHO style guide and change as appropriate.
4. Send the template to UNAIDS. This sheet will be used as a mechanism of quality assurance and completeness as the issue proceeds through production.
5. Compile a sheet of author details to list under topic headings the publication title and authors and correspondent information. Send list to UNAIDS.

Dissemination:

1. Send completed issue to UNAIDS Senior Science Adviser as MSWord file along with the author contact details. UNAIDS will do the final sign-off on each issue.

Uploading Digest:

1. As soon as the HIV this month issue in MSWord template is cleared by the Office of the UNAIDS Science Panel, post the HTM issue on the <http://scienzenow.unaids.org>, ensure quality, then notify UNAIDS to clear and publish the issue content on the live site.

There will not be a public opening of bids.

3.2 Clarification of Proposals

UNAIDS may, at its discretion, ask any bidder for clarification of any part of its proposal to assist in the examination, evaluation and comparison of proposals. The request for clarification and the response shall be in writing. No change in price or substance of the proposal shall be sought, offered or permitted during this exchange.

3.3 Preliminary Examination of Proposals

UNAIDS will examine the proposals to determine whether: (i) they are complete, (ii) any computational errors have been made, (iii) the documents have been properly signed, and (iv) the proposals are generally in order.

Please note that UNAIDS is not bound to select any of the firms/institutions submitting proposals. Furthermore, since a contract would be awarded in respect of the proposal which is considered most responsive to the needs of the project concerned, due consideration being given to UNAIDS' general principles, including economy and efficiency, UNAIDS does not bind itself in any way to select the firm/institution offering the lowest price.

3.4 Technical Evaluation of Proposals

A two-stage procedure will be utilized in evaluating the proposals, with technical evaluation of the proposal being completed prior to any evaluation of the Financial Proposal.

The technical evaluation of proposals will be accomplished by a selection panel. The selection panel will evaluate all proposals which have passed the preliminary examination of proposals according to:

- clear, well-written in evident English (**20 Points**)
- involvement of a network of expertise to cover a range of disciplines (**20 Points**)
- the appropriateness of the proposed approach (**10 Points**);
- the quality of the technical solution proposed (**10 Points**);
- the experience of the individual or firm in carrying out related projects (**20 Points**); and
- the qualifications and competence of the personnel proposed for the assignment (**20 Points**).

The obtainable number of points specified for each evaluation criterion indicates the relative significance or weight of the item in the overall evaluation process. The points allocated to the technical proposal correspond to 60% of the total obtainable points.

3.5 Financial Proposal Evaluation

The financial proposal will only be evaluated if the technical proposal achieves a minimum of 60% of the total allocable points for the technical evaluation. Proposals failing to obtain this minimum threshold will not be eligible for further consideration.

The maximum number of points for the price component is 40% of the total obtainable points.

This maximum number of points will be allocated to the lowest price proposal. All other price proposals will receive points in inverse proportion according to the following formula:

Points for the price component of a proposal being evaluated = $([\text{Maximum number of points for the price component}] \times [\text{Lowest price}]) / [\text{Price of proposal being evaluated}]$

3.6 Bidders' Presentations

At the discretion of UNAIDS, selected bidders may be invited to supply additional information on the contents of their proposal during the evaluation period. Such bidders could be asked to give a presentation of their proposal (possibly with an emphasis on a topic of UNAIDS's choice) followed by a question and answer session. If UNAIDS determines that there is such a need, the presentation will be held at UNAIDS Headquarters in Geneva, or by videoconference/Internet. Bidders will be given reasonable time to prepare for the presentation.

NOTE: Presentations or other individual contact is expressly prohibited before the closing date for proposal submission.

4. AWARD OF CONTRACT

4.1 Award Criteria, Award of Contract

UNAIDS reserves the right to:

- a) Award the contract to a bidder of its choice, even if its bid is not the lowest;
- b) Award separate contracts for parts of the work, components or items, to one or more bidders of its choice, even if their bids are not the lowest;
- c) Accept or reject any proposal, and to annul the solicitation process and reject all proposals at any time prior to award of contract, without thereby incurring any liability to the affected bidder or bidders and without any obligation to inform the affected bidder or bidders of the grounds for UNAIDS' action;
- d) Award the contract on the basis of UNAIDS' particular objectives to a bidder whose proposal is considered to be the most responsive to the needs of the Organization and the activity concerned;
- e) Not award any contract at all.

UNAIDS has the right to eliminate bids on technical or other reasons throughout the evaluation/selection process. UNAIDS shall not in any way be obligated to reveal, or discuss with any bidder, how a proposal was assessed, or to provide any other information relative to the evaluation/selection process or to state the reasons for elimination to any bidder

NOTE: UNAIDS is **acting in good faith** by issuing this RFP. However, **this document does not obligate UNAIDS to contract for the supply of any products or services.**

4.1.1 Right to modify Scope or Requirements during the Proposal Process

UNAIDS reserves the right to, at any time during the proposal process, modify the scope of services and goods specified in the RFP. At any time in the selection process, UNAIDS reserves the right to issue an amendment to the RFP detailing the change which should be notified only to bidders who have not been officially eliminated due to technical reasons at that point in time.

4.1.2 Right to Extend/Revise Scope or Requirements at Time of Award

UNAIDS reserves the right, at the time of award of contract, to extend/revise the scope of services and goods specified in the RFP without any change in the base price of services and goods or other terms and conditions offered by the selected bidder.

4.1.3 Right to enter into Contract Price Negotiations

UNAIDS reserves the right to enter into negotiations, with one or more bidders that have not been eliminated during the evaluation process, including but not limited to negotiations of the terms of the proposal(s), the price quoted in such proposal(s) and/or the deletion of certain parts of the work, components or items called for under this RFP..

4.2 Signing of the Contract

Within 30 days of receipt of the contract the successful bidder shall sign and date the contract and return it to UNAIDS according to the instructions provided at that time. If the bidder does not accept the contract terms without changes, then UNAIDS has the right not to proceed with the selected bidder and instead contract with another bidder of its choice.

The award of contract will be published in the UNAIDS public website, after all internal clearances and acceptance of the contract by the selected bidder.

5. GENERAL AND CONTRACTUAL CONDITIONS

The contract between UNAIDS and the selected bidder ("the Contract") will, unless otherwise explicitly agreed in writing, include the provisions as set forth in this section, and will otherwise inter alia address the following issues:

- Responsibilities of the selected bidder(s) ("The Contractor(s)") and UNAIDS;

- payment terms tied to the satisfactory completion of the work;

The total amount payable by UNAIDS under the Contract may be either a lump sum or a maximum amount. If the option for payment of a lump sum applies, that lump sum is payable in the manner provided, subject to satisfactory performance of the work. Unless otherwise specified in the Contract, UNAIDS shall have no obligation to purchase any minimum quantities of goods or services from the Contractor, and UNAIDS shall have no limitation on its right to obtain goods or services of the same kind, quality and quantity as described in the Contract, from any other sources at any time..

5.1 Conditions of Contract

Any and all of the Contractor's (general and/or special) conditions of contract are hereby explicitly excluded from the Contract, i.e., regardless of whether such conditions are included in the Contractor's offer, or printed or referred to on the Contractor's letterhead, invoices and/or other material, documentation or communications.

5.2 Responsibility

The Contractor will be responsible to ensure that the work performed under the Contract meets the agreed specifications and is completed within the time prescribed. The Contractor shall facilitate the operational audit related to the execution of the work and the compliance with the obligations set forth in the Contract, by persons so designated by UNAIDS. In this regard, the Contractor shall make all relevant operational information, without restriction, available to persons so designated by WHO and provide satisfactory explanations to all queries arising in connection therewith.

5.4 Warranties

The Contractor will warrant and represent to UNAIDS as follows:

- 1) The deliverables shall meet the specifications and shall function in a manner which is fully adequate to meet its intended purpose. The Contractor furthermore warrants that the deliverables shall be error-free, in that the Contractor shall correct any errors in the deliverables, free of charge, within fifteen days after their notification to the Contractor, during a period of at least six months after completion of the work. It is agreed, however, that errors and other defects, which have been caused by modifications to the deliverables made by UNAIDS without agreement of the Contractor are not covered by this paragraph.
- 2) The deliverables shall, to the extent it is not original, only be derived from, or incorporate, material over which the Contractor has the full legal right and authority to use it for the proper implementation of this Contract. The Contractor shall obtain all the necessary licenses for all non-original material incorporated in the deliverables including, but not limited to, licenses for UNAIDS to use any underlying software, application, and operating deliverables included in the deliverables or on which it is based, so as to permit UNAIDS to fully exercise its rights in the deliverables and the software without any obligation on UNAIDS's part to make any additional payments whatsoever to any party.

The Contractor furthermore warrants and represent that the information provided by it to UNAIDS in response to the RFP and during the bid evaluation process is accurate and complete. The Contractor understands that in the event The Contractor has failed to disclose any relevant information which may have impacted UNAIDS' decision to award the Contract to The Contractor, or has provided false information, UNAIDS will be entitled to rescind the contract with immediate effect, in addition to any other remedies which UNAIDS may have by contract or by law

5.5 Legal Status

The Contractor shall be considered as having the legal status of an independent contractor vis-à-vis UNAIDS, and nothing contained in or relating to the Contract shall be construed as establishing or creating an employer/employee relationship between UNAIDS, on the one hand, and the Contractor or any person used by the Contractor in the performance of the work, on the other hand.

Thus the Contractor shall be solely responsible for the manner in which the work is carried out. UNAIDS shall not be responsible for any loss, accident, damage or injury, suffered by the Contractor or persons or entities claiming under the Contractor, arising during or as a result of the implementation or execution of the Contract, including travel, whether sustained on UNAIDS premises or not.

5.6 Relation Between the Parties

The Contract does not constitute a partnership between the Parties or does not constitute either Party as the agent of the other.

5.7 Waiver of Breach

The waiver by either Party of any provision or breach of the contract shall not prevent subsequent enforcement of such provision or excuse further breaches.

5.8 Liability

The Contractor hereby indemnifies and holds UNAIDS harmless from and against the full amount of any and all claims and liabilities, including legal fees and costs, which are or may be made, filed or assessed against UNAIDS at any time and based on, or arising out of, breach by the Contractor of any of its representations or warranties under the Contract, regardless of whether such representations and warranties are explicitly incorporated here in or are referred to in any attached Appendices.

5.9 Assignment

The Contractor shall not assign, transfer, pledge or make other disposition of this Contract or any part thereof, or any of the Contractor's rights, claims or obligations under this Contract except with the prior written consent of UNAIDS.

5.10 Officials not to Benefit

The Contractor warrants that no official of UNAIDS has received or will be offered by the Contractor any direct or indirect benefit arising from this Contract or the award thereof. The Contractor agrees that breach of this provision is a breach of an essential term of this Contract.

5.11 Indemnification

The Contractor shall indemnify and hold UNAIDS harmless, from and against the full amount of any and all claims and liabilities, including legal fees and costs, which are or may be made, filed or assessed against UNAIDS at any time and based on, or arising out of, the acts or omissions of the Contractor, or the Contractor's employees, officers, agents, partners or sub-contractors, in the performance of the Contract. This provision shall extend, inter alia, to claims and liabilities in the nature of workmen's compensation, product liability and liability arising out of the use of patented inventions or devices, copyrighted material or other intellectual property by the Contractor, its employees, officers, agents, servants, partners or sub-contractors.

5.12 Contractor's Responsibility for Employees

The Contractor shall ensure that each of its employees and/or other persons and entities having access to such information shall be made aware of, and be bound by, the obligations of the Contractor under this paragraph. However, there shall be no obligation of confidentiality or restriction on use, where: (i) the information is publicly available, or becomes publicly available, otherwise than by any action or omission of the Contractor, or (ii) the information was already known to the Contractor (as evidenced by its written records) prior to becoming known to the Contractor in the implementation and execution of this Contract; or (iii) the information was received by the Contractor from a third party not in breach of an obligation of confidentiality.

In addition, UNAIDS shall be entitled to terminate the Contract (or part thereof), in writing:

- 1) At will with the provision of thirty (30) days prior notice in writing
- 2) With immediate effect (in addition to other rights, such as the right to claim damages), if, other than as provided in the paragraph above, the Contractor is:

On receipt of the notice required under this Article, UNAIDS shall take such action as, in its sole discretion, it considers to be appropriate or necessary in the circumstances, including the granting to the Contractor of a reasonable extension of time in which to perform its obligations under this Contract.

5.20 Surviving Provisions

Those rights and obligations of the Parties as set forth in section 5 that are intended by their nature to survive the expiration or earlier termination of the Contract shall survive indefinitely. All Contractor Personnel must have appropriate qualifications, skills and levels of experience and otherwise be adequately trained to perform the work. UNAIDS reserves the right to undertake an interview process as part of the approval of Contractor Personnel.

The Contractor acknowledges that the qualifications, skills and experience of the Contractor personnel proposed to be assigned to the project are material elements in UNAIDS's engaging the Contractor for the project. Therefore, in order to ensure timely and cohesive completion of the project, both parties intend that Personnel initially assigned to the project continue through to project completion. Once an individual has been approved and assigned to the project, such individual will not, in principle, thereafter be taken off the project by the Contractor to other duties. UNAIDS may refuse access to or require replacement of any Contractor Personnel if such individual renders, in the sole judgment of UNAIDS, inadequate or unacceptable performance, or if for any other reason UNAIDS finds such individual does not meet his/her security or responsibility requirements. The Contractor shall replace such an individual within fifteen (15) business days of receipt of written notice from UNAIDS. The replacement will have the required qualifications, skills and experience and will be billed at a rate that is equal to or less than the rate of the individual being replaced.

Each party shall appoint a qualified project manager ("Project Manager") who shall serve as such party's primary liaison throughout the course of the project. The Project Manager shall be authorized by the respective party to answer all questions posed by the other party and convey all decisions made by such party during the course of the project and the other party shall be entitled to rely on such information as conveyed by the Project Manager.
