1. INTRODUCTION

1.1 Objective of the RFP

The purpose of this Request for Proposal (RFP) is to enter into a contractual agreement with a successful bidder and select a suitable contractor to carry out the configuration of the application interface to implement the Situation Room concept designed by UNAIDS using the miVEDIX application.

UNAIDS is an organization that is dependent on the budgetary and extra-budgetary contributions it receives for the implementation of its activities. Bidders are therefore requested to propose the best and most cost-effective solution to meet UNAIDS requirements, while ensuring a high level of service.

For more information about UNAIDS please consult our website www.unaids.org.

1.2.2 Accreditations

- Ivedix technical certified partner

1.2.3 Previous experience

- Proven experience in providing resources similar to the roles outlined under section 1.3.

 - All resources provided need to be able to communicate and work in English.
-

1.3 Work to be performed

1.3.1 Background

UNAIDS has developed the concept of a Situation Room to better monitor data that relate to Fast-Track priorities, i.e. testing, treatment and retaining people on treatment. This data should be drawn from national and sub-national systems. These include logistics information (commodities such as test kits and ARVs delivered; monitoring stock-outs) and service delivery statistics (number of tests done, number of people on treatment, number of people retained after 12 months), such as from District Health Information Systems.

After a pilot phase UNAIDS has determined the use of Ivedix as the platform for implementing the concept.

1.3.2 Concept

The Situation Room is a centralised place for collaboration, discussion and taking managerial decisions.

Monitored data will be projected on a big screen. Participants should be able to take over the screen and share reports, slides, new indicators, actively steering the discussions and providing clear rationale to decisions. This approach encourages participants to be present in same space regularly, engaging to a dialogue, and improving transparency in taking decisions. For a richer user experience, the Situation Room is controlled from a tablet.

The situation room concept includes selecting different views or their combination to the data. These include illustrating data on maps, charts and tables, a combination of them, or any other innovative ways. The data can be viewed at aggregated level (global, regional, and national) or disaggregated to subnational levels (such as country districts, counties or facilities). The data is sourced from a single or multiple datasets, which will be dynamically updated in the situation room.

1.3.3 RFP components

This RFP includes two components:

- **Headquarters (HQ) / Regional Support Teams (RSTs) Situation Room**
Situation Room used by UNAIDS management at headquarters and regional level (seven regions). The regional situation room will utilize regional data views (reports) using the same platform as the headquarters.
- **Country (national) Situation Room**
Situation Room used by government representatives at national level

The project will cover the implementation of the HQ/RSTs Situation Room and one Country Situation Room.

UNAIDS procures the hardware for situation room through another bidding process, and it is not included in the content of this RFP.

1.3.4 Key requirements

1.3.4.1 Visualization software

UNAIDS has, through a thorough analysis, identified the best platform that will meet its needs. The solution miVEDIX (www.ivedix.com) was selected for this project.

1.3.4.2 Identified indicators

Global level indicators (HQ/RSTs Situation Room):

Data source: AIDSinfo - www.unaids.org/en/dataanalysis/datatools/aidsinfo (MS SQL Server)

Update frequency: annual / bi-annual

Below is an extract of core indicators (subject to change), which will be reflected at regional, country, and sub-national levels (where applicable):

- People receiving antiretroviral therapy and coverage
- New HIV infections
- AIDS related deaths
- Investments
- Antiretroviral therapy policy
- National HIV prevalence

- Paediatrics
- Percentage of HIV pregnant women receiving ART

National and subnational level indicators (for one identified country):

Data sources: DHIS2 and custom made application

Update frequency: monthly

- Number of tests carried out
- Number of people test HIV+
- Number of adults and children newly enrolled in care
- Number of people on ART
- Number of people newly initiated on ART
- Percentage of HIV+ pregnant women who received ARVs to reduce the risk of MTCT
- Percentage of women living with HIV who are provided with ARVs for themselves or their infants during breastfeeding
- Percentage of infants born to HIV-positive women receiving a virological test for HIV within 2 months of birth
- Number of people retained on ART after 12 months / 24 months / 36 months
- Number of people virally suppressed
- Number of test kits distributed
- Cost of tests per county
- Number of ARVs distributed
- Number of stock outs identified
- Number of 1st line regimen
- Number of 2nd line regimen
- Cost of treatment per country/facility
- Number of CD4 (reagents) distributed
- Estimates
 - Number of people estimated living with HIV
 - Percentage of child HIV infections from HIV+ women delivering in the past 12 months
 - Number of (estimated) AIDS deaths
 - Number of people newly infected on HIV

1.3.4.3 Data source integration

In this project, the miVEDIX platform will connect with three main data sources:

- **AIDSinfo (SQL Server)**
This database contains global and official HIV/AIDS-related data (country-reported GARPR data and Spectrum estimates). Data collection is organized by UNAIDS. Database hosted by UNAIDS.
- **DHIS2 (country implementation)**
Health Management System (<https://www.dhis2.org/>) used by many countries to collect data at national level (down to facility level). The DHIS2 implementation is specific to each country. Database managed and hosted by the country. Data interface should be performed through ETL scripts.
- **Logistic Information System (country specific)**
Data coming from a logistic information system or another custom made system (data interface to be defined but will be developed by the country). Database managed and hosted by the country. Data interface should be performed through ETL scripts.

At country level, data that will be used for the Situation Room (based on identified indicators) will be consolidated in one database at country level. This task (including the process to ensure that data is up-to-date) will be managed by the country and is not part of this RFP.

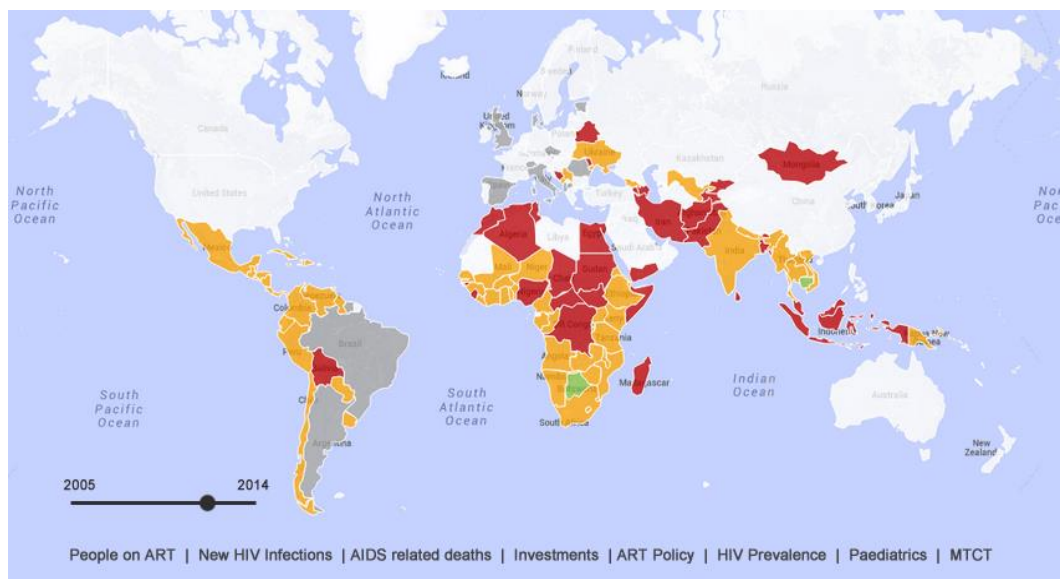

In order to optimize the hosting costs, the Situation Room will centrally gather data from HQ (AIDSinfo) and country data. This will also ensure that adding a new country will not lead to additional costs.

The implemented solution will ensure that the latest data update is always available.

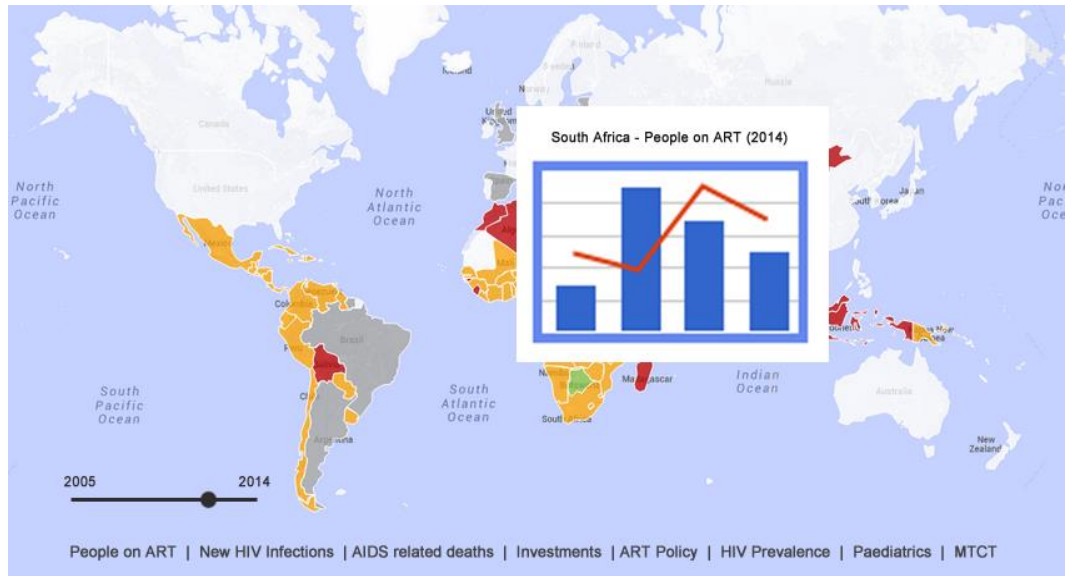

1.3.4.4 Platform customization

The selected bidder will identify the specific requirements which will provide the best user experience. This includes (but not limited to):

- **Specific templates design to ensure miVEDIX makes the best use of the screen**
Since the main use case of the Situation Room is to be projected on a wide screen, the size of the dashboards must be configured to comply with the screen resolution (landscape mode).
- **Look and feel**
The solution must support 2 branding: UNAIDS and country specific
- **Simple navigation from one indicator to another**
The success of the Situation Room resides in its simplicity and clarity: the navigation must be intuitive.
 - **Global level (AIDSinfo)**
At Global level, the navigation starts from a world map on which the user can easily navigate from one indicator to another and for a selected year.

A selection of a country will display a chart for the associated indicator.

- **National level**
It should be possible to drill down at the national/district level when the information is available. The scenario will then be similar to the one described above. The map of the selected country will display information at county/state/district level and the selection of a county/state/district will display the chart of the associated indicator.
- **Data sources**
For each indicator/chart, the data sources must be displayed
- **Views**
The Situation Room must offer different views based on the profile/location of the user:
 - **For UNAIDS HQ users:** the landing page will start a global level (region map)
 - **For UNAIDS RST users:** the landing page will focus on the associated region
 - **For users at country level:** the landing page will focus on the country
- **Offline version**
The Situation Room must also be available offline to cover Internet connectivity issues and to provide users with the possibility to bring the Situation Room on their device when traveling.
- **Role-based security**
It should be possible to configure the level of data accessibility based on user roles (location, function, data granularity).

1.3.4.5 Deployment and licences requirements

The Situation Room will be deployed in UNAIDS offices and one country. The software licences will be distributed as follows:

- **Head Quarters /Regional Support Teams (7) Situation Room**
 - Named users: 60
 - Situation Room: 45
- **Country (national) Situation Room**
 - Named users: 60

- Situation Room: 60
- The offer should include incremental rates with a potential for expanding up to 500 licenses (using pricing for nonprofit organizations).

Named users licences will be assigned to managers who need regular access to the Situation Room. *Situation Room* licences will be assigned to specific hardware for a physical Situation Room. Perpetual licences are considered for this RFP.

1.3.4.6 Support and maintenance

The service provider is expected to make a proposal for 1 training event for users at both instances (HQ and country situation room); and to make an offer of a support service for the duration of 12 and 24 months.

1.3.4.7 Flexibility of the solution and knowledge transfer

Although the project will start with a predefined set of indicators, it is important for UNAIDS to be able to extend the data model and add indicators based on new set of data and data sources. The bidders are required to detail the knowledge transfer process which will allow the Situation Room Administrators to be technically self-supporting.

1.3.4.8 Work permits/ Visa Application

The bidder will be fully responsible for visa/permit applications. Unreasonable delays in having staff on-site due to permit/visa issues will be considered as grounds for cancelling a contract.

1.3.5 Reporting requirements

A report addressed to UNAIDS based on the deployment of the solution including the technical documentation, the configuration of the software and handover documentation.

1.3.6 Finance and accounting requirements

One financial accounting report for work performed until the completion of the project.

1.3.7 Performance monitoring

The IT Department focal point will monitor the quality of deliverables in a timely manner within the defined budget. A formal review may be conducted to understand the performance of the bidder and their supplied resources.

1.3.8 Further Capacities

No additional capacity

UNAIDS' general policy is to pay for the performance of contractual services rendered or to effect payment upon the achievement of specific milestones described in the contract.

Please note that UNAIDS' policy is to make an advance payment up to a maximum of 25 per cent upon signature of a contract, whether a private firm, NGO or a government or other entity. UNAIDS, at its discretion, may however determine that such payment is not warranted or determine the conditions under which such payment would be made. Further information may be requested by UNAIDS at the time of finalizing contract negotiations with the selected bidder.

Any request for an advance payment is to be justified and documented and must be submitted with the financial proposal. Further information may be requested by UNAIDS at the time of finalizing contract negotiations with the selected bidder.

There will be no automatic confirmation of receipt as the proposals are only opened after the closing date. The email subject must include the bid reference number available on the first page of this RFP and on the UNAIDS website. Due to email size limitation, multiple emails can be send as the bidder submission.

2.9 Period of Validity of Proposals

The offer outlined in the proposal must be valid for a minimum period of 120 calendar days after the closing date. A proposal valid for a shorter period may be rejected by UNAIDS. Any proposal received by UNAIDS after the closing date for submission of proposals may be rejected.

2.11 Modification and Withdrawal of Proposals

The bidder may withdraw its proposal any time after the proposal's submission and before the opening date, provided that written signed notice of the withdrawal (by a duly authorized representative of the bidder) via email is received by UNAIDS prior to the closing date.

The bidder's withdrawal notice shall be prepared and dispatched to be received before the closing date in accordance with section 2.10.

- Email for withdrawal of proposal: Bids@UNAIDS.org

However, if you submitted your technical and financial proposals using the option for Electronic Submission in section 2.8, then your withdrawal notice must also be submitted to these email addresses with the reference number and the word WITHDRAWAL clearly indicated in the subject line.

No proposal may be modified after the closing date for submission of proposals, unless UNAIDS has issued an amendment to the RFP allowing such modifications (see section 2.13).

No proposal may be withdrawn in the interval between the opening date and the expiration of the period of proposal validity specified by the bidder in the proposal.

2.12 Receipt of Proposals from Non-invitees

UNAIDS may, at its own discretion, extend the RFP to bidders that were not included in the individual invitation list if this is necessary and in the interest of UNAIDS. RFPs published by UNAIDS on the UNAIDS website are open for all qualified bidders.

2.13 Amendments of the RFP

At any time prior to the closing date for submission of proposals, UNAIDS may, for any reason, whether on its own initiative or in response to a clarification requested by a bidder, modify the RFP by amendment. Amendments could include modification of project scope or requirements, project timeline expectations or extension of the closing date for submission.

All prospective bidders that have received the RFP will be notified in writing of all amendments to the RFP. In addition, all amendments will be posted on the UNAIDS website in the Request for Proposals section and in any other website used by UNAIDS directly for publishing the Request for Proposals.

3. OPENING AND EVALUATION OF PROPOSALS

3.1 Opening of Proposals

UNAIDS will open the technical proposals in the presence of a Committee formed by UNAIDS at the Headquarters office in Geneva, Switzerland on a date fixed after the closing of the tendering period. Each technical proposal will be opened during the session with each bidder announced. Financial proposals will be opened only after the technical evaluation of the proposals.

There will not be a public opening of bids.

3.2 Clarification of Proposals

UNAIDS may, at its discretion, ask any bidder for clarification of any part of its proposal to assist in the examination, evaluation and comparison of proposals. The request for clarification and the response shall be in writing. No change in price or substance of the proposal shall be sought, offered or permitted during this exchange.

3.3 Preliminary Examination of Proposals

UNAIDS will examine the proposals to determine whether: (i) they are complete, (ii) any computational errors have been made, (iii) the documents have been properly signed, and (iv) the proposals are generally in order.

Please note that UNAIDS is not bound to select any of the firms/institutions submitting proposals. Furthermore, since a contract would be awarded in respect of the proposal which is considered most responsive to the needs of the project concerned, due consideration being given to UNAIDS' general principles, including economy and efficiency, UNAIDS does not bind itself in any way to select the firm/institution offering the lowest price.

3.4 Technical Evaluation of Proposals

A two-stage procedure will be utilized in evaluating the proposals, with technical evaluation of the proposal being completed prior to any evaluation of the Financial Proposal.

The technical evaluation of proposals will be accomplished by a selection panel. The selection panel will evaluate all proposals which have passed the preliminary examination of proposals according to:

- the quality of the overall proposal (**10 Points**);
- the appropriateness of the proposed approach / ability to meet UNAIDS requirements (**30 Points**);
- the modalities proposed and thoroughness of support options (**15 Points**)
- the modalities proposed and thoroughness description for knowledge transfer (**15 Points**)
- the experience of the firm in carrying out related projects and technologies (**20 Points**);
- the qualifications and competence of the personnel proposed (**10 Points**);

The obtainable number of points specified for each evaluation criterion indicates the relative significance or weight of the item in the overall evaluation process. The points allocated to the technical proposal correspond to 60% of the total obtainable points.

3.5 Financial Proposal Evaluation

The financial proposal will only be evaluated if the technical proposal achieves a minimum of 60% of the total allocable points for the technical evaluation. Proposals failing to obtain this minimum threshold will not be eligible for further consideration.

The maximum number of points for the price component is 40% of the total obtainable points.

This maximum number of points will be allocated to the lowest price proposal. All other price proposals will receive points in inverse proportion according to the following formula:

Points for the price component of a proposal being evaluated = ([Maximum number of points for the price component] x [Lowest price]) / [Price of proposal being evaluated]

3.6 Bidders' Presentations

At the discretion of UNAIDS, selected bidders may be invited to supply additional information on the contents of their proposal during the evaluation period. Such bidders could be asked to give a presentation of their proposal (possibly with an emphasis on a topic of UNAIDS's choice) followed by a question and answer session. If UNAIDS determines that there is such a need, the presentation will be held at UNAIDS Headquarters in Geneva, or by videoconference/Internet. Bidders will be given reasonable time to prepare for the presentation.

NOTE: Presentations or other individual contact is expressly prohibited before the closing date for proposal submission.

UNAIDS reserves the right to, at any time during the proposal process, modify the scope of services and goods specified in the RFP. At any time in the selection process, UNAIDS reserves the right to issue an amendment to the RFP detailing the change which should be notified only to bidders who have not been officially eliminated due to technical reasons at that point in time.

Within 30 days of receipt of the contract the successful bidder shall sign and date the contract and return it to UNAIDS according to the instructions provided at that time. If the bidder does not accept the contract terms without changes, then UNAIDS has the right not to proceed with the selected bidder and instead contract with another bidder of its choice.

The award of contract will be published in the UNAIDS public website, after all internal clearances and acceptance of the contract by the selected bidder.

5. GENERAL AND CONTRACTUAL CONDITIONS

The contract between UNAIDS and the selected bidder ("the Contract") will, unless otherwise explicitly agreed in writing, include the provisions as set forth in this section, and will otherwise inter alia address the following issues:
