1. INTRODUCTION

1.1 Objective of the RFP

The purpose of this Request for Proposal (RFP) is to enter into a contractual agreement with a successful bidder and select a suitable contractor to carry out a **review, update and finalization of guidelines, dedicated software and related training activities, technical support, backstopping and capacity building for National Aids Spending Assessments (NASA)**.

UNAIDS is an organization that is dependent on the budgetary and extra-budgetary contributions it receives for the implementation of its activities. Bidders are therefore requested to propose the best and most cost-effective solution to meet UNAIDS requirements, while ensuring a high level of service.

For more information about UNAIDS please consult our website www.unaids.org.

1.2 Characteristics of the bidder

1.2.1 Status

- The provider shall be an individual with substantial knowledge in planning and conducting NASA, with proven expertise in related areas and extensive country experience.
- Accreditations: No specific requirement.

1.2.2 Previous experience

- A minimum of Master's degree in Health Economics, Economics, Public Administration, or Accountancy
- Previous work with UNAIDS or other international institution operating in the field of the National AIDS Spending Assessment (NASA);
- Experience in the implementation of NASA activities, specifically the facilitation of training workshops and technical assistance to minimum of five countries.
- Preferably some experience within the public finance sector, National Health Accounts methodologies and budget analysis activities

1.2.3 Logistic capacity

- Established electronic communication capabilities, this includes necessary hardware and Internet access capable to conduct videoconferencing and email. A WebEx account for teleconferencing will be provided by UNAIDS for the duration of the contract.

1.2.4 Staffing

The consultant should possess the following skills and competencies:

- Thorough understanding of the HIV and AIDS national response through the National Strategic Plan in the countries that are supported
- Excellent analytical and report-writing skills
- Fluency in spoken English. French and/or Spanish would be an asset
- Good writing skills in English
- General computer literacy
- Excellent knowledge and experience with Microsoft Excel

1.3 Work to be performed

1.3.1 Key requirements

NASA AIDS spending categories are a functional classification that includes health and non-health services related to HIV. The AIDS spending categories (ASCs) are structured into eight classes of spending: (1) prevention; (2) care and treatment; (3) orphans and other children made vulnerable by AIDS; (4) programme management and administration; (5) human resources; (6) social protection; (7) enabling environment; and (8) research.

NASA: DECISION-MAKING BASED ON EVIDENCE: NASA was developed as a tool to help policy-makers assess the level of expenditures for HIV services. However, NASA can also be used for analysing fiscal space and for estimating financing gaps by answering the following questions:

- Are the available financial resources adequate to meet the future demand for services?
- Where and when are resource gaps expected?

Donors and policy-makers need to estimate the financial resources available for HIV service provision. NASA generates the necessary evidence to plan HIV services and mobilize resources.

NASA addresses concerns about the availability of external funding streams to support current and future programme activities and also quantifies allocations associated with different policy options.

NASA AND UNGASS INDICATOR No. 1: The national funding matrix is used to measure the first UNGASS indicator, on national commitment and action. It is constructed with the NASA ASCs information on AIDS spending in countries.

The work required is composed of 2 components:

Component A: Revision of NASA documents and finalization of the NASA Notebook

UNAIDS will contract this component for a fixed price. Drafts are due to by March 31st, 2013, and the deadline for delivery of the final products is June 30th, 2013.

Update the “NASA notebook” which was drafted in 2009 and needs a revision and an update on the methods. The document is available at:

https://dl.dropbox.com/u/45450726/NASA%20Notebook_FINAL_Revised_July%202010_CAF.doc

Update NASA training materials and additional supplementary guidelines (in English). This regards the update of the NASA training power point presentations. This would include updating the methodology described and the branding on the materials to the latest UNAIDS branding as well as updating the NASA case study used for trainings to ensure the latest figures are included, e.g. a) years mentioned in the exercise (to be updated to 212) b) ARVs mentioned in the case study (to be updated to current WHO guidelines).

Examples of training materials and supplementary guidelines to be updated are available for review of the bidders at:

Test the NASA new RTS software and suggest changes and fixes, if needed. The NASA software final version will be released in December. It is important to test that the version is working according to the agreements with the developer. For this reason the consultant should enter dummy or real data to the software and test for any possible bugs. It is foreseen the testing period prior to launching the tool would be between 01-01-2012 and 31-03-2013 however the final dates depend on the delivery of the beta version from the software developer. In addition, user guidelines for the software should be checked regarding the user-friendliness and understandability and be edited accordingly as needed.

An example of issues and modifications in the new version of the software can be found at:

<https://dl.dropbox.com/u/45450726/Examples%20of%20Issues%20Modified%20in%20the%20New%20NASA%20Software%20-%20v1.docx>

Component B: Support to NASA implementation in Countries

UNAIDS will contract this component for a daily fee with previous authorization on the number of days for each country support:

The contractor will provide remote technical support to NASA teams in countries (composed of consultants and local teams). Technical assistance shall be provided in English, French or Spanish, as appropriate, using remote technical assistance tools such as: webinars, emails, teleconferences and other applicable tools.

The contract for component B is envisaged to cover the period to provide support from January 2013 to November 2013. However, many of the countries listed above will have a deadline for finalization of their NASAs set at the end of March 2013, and the consultant should thus be able to make sufficient time available, particularly during this period.

Countries expected to request support in the coming months are listed below; however it would need to be understood that a request from an additional country not listed may be authorized by UNAIDS for the support of the consultant: Bangladesh, Botswana, Cambodia, Colombia, Ethiopia, Haiti, Malawi, Mozambique, Namibia, Rwanda, Sudan (North), Tanzania, Uruguay, Vietnam and Zambia. More countries may be added in 2013; and some countries listed may, however, still decide to postpone their NASA to 2014).

The main objective of this support will be to assist NASA teams at country level that are in need of support and advise from a senior NASA consultant, during the planning, data collection, data validation, analysis or dissemination of results in order to guarantee the adequate use of the NASA methodology to produce accurate and consistent data on how funds are spent at the national level and where they derive from, in order to inform decision makers on funds allocation.

The consultant will specifically:

- Plan the implementation of NASA in the selected countries and guide the national consultants during the process as needed through remote technical backstopping.
- Provide advice to country teams for setting up a national task force to track resource and expenditures on an annual basis as well as on setting up an adequate data collection strategy.
- Provide advice and guidance on an adequate use and categorization of spending according to the NASA classifications (financing sources, financing agent, provider, AIDS spending categories, beneficiary population and production factors).
- Reply to any questions raised by the participants of training sessions during the future implementation of their NASA.
- Organize and conduct specific training activities (webinars, etc.) on the implementation of NASA for national NASA team members, as needed.
- Facilitate Trainings on NASA software through training activities (webinars, etc.) for selected consultants and/or national NASA team members specifically on the use of the new software, as needed.
- The consultant may also be requested to provide in-country technical assistance on NASA implementations, either to supervise the NASA data collection team or to be a part of it. However, in-country assistance is not foreseen and should only be provided exceptionally, after approval of the responsible UNAIDS staff member. Additional resources to fund travel expenses would be allocated to the contract in case of need to travel.

The tasks mentioned above are meant as support for HQ, i.e. as technical backstopping for the recently appointed NASA focal point. This will need a very experienced consultant with wide knowledge in the field as well as in multiple countries and regions.

Request from countries are expected to be received at short notice. The consultant would need to ensure to be able to respond to specific requests from countries to UNAIDS within 10 calendar days, understanding that the maximum number of days might reach up to 50 working days, but that the number of days actually required is neither fixed nor guaranteed.

1.3.2 Reporting requirements

At the end of the contract the consultant will deliver a technical report summarizing:

- An updated revision of documents requested in Component A. Only an electronic copy of the updated material is required and a report summarizing the changes incorporated.
- A report for each approved intervention to the countries summarizing the support provided and time spent for invoicing.
- A summary of the comments and suggestions on the testing of the new RTS software and related training materials.

1.3.3 Finance and accounting requirements

At the end of the contract the consultant will submit a financial report, to be submitted not later than 15 days after the end of the contract.

1.3.4 Performance monitoring

For component A, a review of the updated material and assessment of the quality of final deliverable will be conducted to determine the performance.

For component B, after each country intervention a survey of the support provided will be conducted with the local NASA team to evaluate the performance of the consultant. The consolidated review of all interventions would be considered to evaluate the performance of the consultant.

The Financial Proposal must contain a summary of total cost for the services proposed as well as a proposed schedule of payments, all of which must be expressed and will be made in the currency of the proposal.

In preparing Financial Proposals, bidders should carefully note the following provisions regarding UNAIDS policies on limitations on advance payments, retention, performance bonds, etc.

UNAIDS' general policy is to pay for the performance of contractual services rendered or to effect payment upon the achievement of specific milestones described in the contract.

Please note that UNAIDS' policy is to make an advance payment up to a maximum of 25 per cent upon signature of a contract, whether a private firm, NGO or a government or other entity. UNAIDS, at its discretion, may however determine that such payment is not warranted or

determine the conditions under which such payment would be made. In any case where an advance payment for \$50,000 or more is requested and subsequently approved, UNAIDS will normally require a bank guarantee or other suitable security arrangement. Further information may be requested by UNAIDS at the time of finalizing contract negotiations with the selected bidder.

Any request for an advance payment is to be justified and documented and must be submitted with the financial proposal. This justification shall explain the need for the advance payment, itemize the amount requested and provide a time-schedule for utilization of said amount. In addition, the bidder must submit documentation regarding its financial status, e.g. audited financial statements at 31 December of the previous year, and include this documentation with its financial proposal. Further information may be requested by UNAIDS at the time of finalizing contract negotiations with the selected bidder.

The email subject must include the bid reference number available on the first page of this RFP and on the UNAIDS website. Due to email size limitation, multiple emails can be sent as the bidder submission.

2.9 Period of Validity of Proposals

The offer outlined in the proposal must be valid for a minimum period of 120 calendar days after the closing date. A proposal valid for a shorter period may be rejected by UNAIDS. In exceptional circumstances, UNAIDS may solicit the bidder's consent to an extension of the period of validity. The request and the responses thereto shall be made in writing. Any bidder granting the request will not be required nor permitted to modify its proposal.

2.10 Closing Date for Submission of Proposals

Proposals must be received at UNAIDS at the address specified in section 2.8 no later than 07 January at 17:00 Geneva time.

UNAIDS may, at its own discretion, extend this closing date for the submission of proposals by notifying all bidders thereof in writing.

Any proposal received by UNAIDS after the closing date for submission of proposals may be rejected.

2.11 Modification and Withdrawal of Proposals

The bidder may withdraw its proposal any time after the proposal's submission and before the opening date, provided that written signed notice of the withdrawal (by a duly authorized representative of the bidder) via email is received by UNAIDS prior to the closing date.

The bidder's withdrawal notice shall be prepared and dispatched to be received before the closing date in accordance with section 2.10.

- Email for withdrawal of proposal: Bids@UNAIDS.org

However, if you submitted your technical and financial proposals using the option for Electronic Submission in section 2.8, then your withdrawal notice must also be submitted to these email addresses with the reference number and the word WITHDRAWAL clearly indicated in the subject line.

No proposal may be modified after the closing date for submission of proposals, unless UNAIDS has issued an amendment to the RFP allowing such modifications (see section 2.13).

No proposal may be withdrawn in the interval between the opening date and the expiration of the period of proposal validity specified by the bidder in the proposal.

2.12 Receipt of Proposals from Non-invitees

UNAIDS may, at its own discretion, extend the RFP to bidders that were not included in the individual invitation list if this is necessary and in the interest of UNAIDS. RFPs published by UNAIDS on the UNAIDS website are open for all qualified bidders.

2.13 Amendments of the RFP

At any time prior to the closing date for submission of proposals, UNAIDS may, for any reason, whether on its own initiative or in response to a clarification requested by a bidder, modify the RFP by amendment. Amendments could include modification of project scope or requirements, project timeline expectations or extension of the closing date for submission.

All prospective bidders that have received the RFP will be notified in writing of all amendments to the RFP. In addition, all amendments will be posted on the UNAIDS website in the Request for Proposals section and in any other website used by UNAIDS directly for publishing the Request for Proposals.

3. OPENING AND EVALUATION OF PROPOSALS

3.1 Opening of Proposals

UNAIDS will open the technical proposals in the presence of a Committee formed by UNAIDS at the Headquarters office in Geneva, Switzerland on a date fixed after the closing of the tendering period. Each technical proposal will be opened during the session with each bidder announced. Financial proposals will be opened only after the technical evaluation of the proposals.

Option 2: There will not be a public opening of bids.

3.2 Clarification of Proposals

UNAIDS may, at its discretion, ask any bidder for clarification of any part of its proposal to assist in the examination, evaluation and comparison of proposals. The request for clarification and the response shall be in writing. No change in price or substance of the proposal shall be sought, offered or permitted during this exchange.

3.3 Preliminary Examination of Proposals

UNAIDS will examine the proposals to determine whether: (i) they are complete, (ii) any computational errors have been made, (iii) the documents have been properly signed, and (iv) the proposals are generally in order.

Please note that UNAIDS is not bound to select any of the firms/institutions submitting proposals. Furthermore, since a contract would be awarded in respect of the proposal which is considered most responsive to the needs of the project concerned, due consideration being given to UNAIDS' general principles, including economy and efficiency, UNAIDS does not bind itself in any way to select the firm/institution offering the lowest price.

3.4 Technical Evaluation of Proposals

A two-stage procedure will be utilized in evaluating the proposals, with technical evaluation of the proposal being completed prior to any evaluation of the Financial Proposal.

The technical evaluation of proposals will be accomplished by a selection panel. The selection panel will evaluate all proposals which have passed the preliminary examination of proposals according to:

- the quality of the overall proposal (**100** Points);
- the appropriateness of the proposed approach (**200** Points);
- the experience of the consultant in carrying out related projects (**400** Points);
- the qualifications and competence of the consultant (**200** Points);
- the proposed timeframe for the project (**100** Points);

The obtainable number of points specified for each evaluation criterion indicates the relative significance or weight of the item in the overall evaluation process. The points allocated to the technical proposal correspond to 60% of the total obtainable points.

3.5 Financial Proposal Evaluation

The financial proposal will only be evaluated if the technical proposal achieves a minimum of 60% of the total allocable points for the technical evaluation. Proposals failing to obtain this minimum threshold will not be eligible for further consideration.

The maximum number of points for the price component is 40% of the total obtainable points.

For purposes of evaluation the total cost of the contract would be estimated as the fixed price of component A, plus an estimation 50 consultancy days at the daily fee proposed. The 50 days are only an estimation of the purposes of evaluation and does not constitute a commitment for workload on the part of UNAIDS.

This maximum number of points will be allocated to the lowest price proposal. All other price proposals will receive points in inverse proportion according to the following formula:

Points for the price component of a proposal being evaluated = ([Maximum number of points for the price component] x [Lowest price]) / [Price of proposal being evaluated]

3.6 Bidders' Presentations

At the discretion of UNAIDS, selected bidders may be invited to supply additional information on the contents of their proposal during the evaluation period. Such bidders could be asked to give a presentation of their proposal (possibly with an emphasis on a topic of UNAIDS's choice) followed by a question and answer session. If UNAIDS determines that there is such a need, the presentation will be held at UNAIDS Headquarters in Geneva, or by videoconference/Internet. Bidders will be given reasonable time to prepare for the presentation.

NOTE: Presentations or other individual contact is expressly prohibited before the closing date for proposal submission.

4. AWARD OF CONTRACT

4.1 Award Criteria, Award of Contract

UNAIDS reserves the right to:

- a) Award the contract to a bidder of its choice, even if its bid is not the lowest;
- b) Award separate contracts for parts of the work, components or items, to one or more bidders of its choice, even if their bids are not the lowest;
