

**RFP-2013-07 Support for National Estimates and Projections – 2013**

**Answers to questions from potential bidders (28-Feb-2013)**

**Question:**

Paragraph 1.3.1 D indicates in-country technical assistance for 2012 HIV/AIDS estimates to up to 6 countries. How should I include this possible technical assistance in the financial proposal. Should I consider 1 trip to each country?

**Answer:**

There is no need to estimate the cost for item D since the technical assistance to countries is tentative. Please complete the financial template as requested which does not request travel costs for the technical support.
