Question 1:

As mentioned in your document, two to three contracts will be awarded to ensure availability:

- a) Will there be one main vendor to whom projects will be offered systematically and secondary vendors that will act as backup for vendor one's work overflow?
- b) Will the contracts be awarded following a rotation between the two / three suppliers?

Answer 1:

UNAIDS expects to award contracts to one main vendor and then several secondary vendors, depending on availability and cost. We are not expecting to award contracts on a rotational basis. The final selection mechanism for suppliers receiving contracts will be described in the Request for Proposal.

Question 2:

Regarding the location of assignments:

- a) The work is to be performed in what countries of Africa more specifically?
- b) Is there any known location of assignments other than Africa and Switzerland?

Answer2:

The countries in Africa vary and it is hard to say in advance, but are likely to include South Africa, Kenya and Western African countries.

It is likely that countries in Asia will be part of the assignments, possibly Thailand and India. In Latin America it is possible that Brazil is an assignment location.
