1. INTRODUCTION

1.1 Objective of the RFP

The purpose of this Request for Proposal (RFP) is to enter into a contractual agreement with a successful bidder and select a suitable contractor to design and optionally also develop the Joint United Nations Programme on HIV/AIDS (UNAIDS) web portal.

The UNAIDS web portal, currently with a working title “Investing for Results”, has been proposed to fulfill the following objectives:

- Increase stakeholders’ understanding of the UNAIDS strategy and results;
- Enhance transparency on what UNAIDS does, how and where;
- Tell a story on the Joint Programme’s achievements, on making a difference on AIDS as well as beyond AIDS (global health, social agenda, and broader development)
- Be accountable on the use of funds and delivery of results;
- Assure on the available management and accountability systems in place;
- Offer information on the plans for the future and articulate our financial “ask”;
- Inspire donors to support UNAIDS and attract more resources

Furthermore, the UNAIDS web portal will likewise serve as a platform to convey the key message that UNAIDS, is a unique entity in the UN system that delivers its mandates and achieve results with great impact on the AIDS epidemic. Through its various elements, the portal should illustrate UNAIDS as an organization with personality, connected to people, civil society, activists and those who do not have voice to articulate their aspirations. The UNAIDS web portal is also expected to demonstrate and chart the continuum of UNAIDS work for the 2014-2015 and beyond.

The design and development of the UNAIDS web portal is an undertaking of a task team led by the Executive Office and composed of colleagues from various departments/divisions in the Headquarters, namely: Planning, Finance and Accountability (PFA); Resource Mobilization (RMO); Communications and Global Advocacy (CMM); Technology and Innovation (TIN); and the branch offices of the Deputy Executive Directors. The contents of the UNAIDS web portal shall be sourced from existing reporting mechanisms and information systems across the UNAIDS Secretariat [Please refer to Annex 1].

UNAIDS is an organization that is dependent on the budgetary and extra-budgetary contributions it receives for the implementation of its activities. Bidders are therefore requested to propose the best and most cost-effective solution to meet UNAIDS requirements, while ensuring a high level of service.

For more information about UNAIDS please consult our website <http://www.unaids.org>.

1.2.2 Accreditations

Not applicable

1.2.3 Previous experience

Previous work with UNAIDS or other international institution related to designing and developing websites with global scope. The bidder must demonstrate expertise and competence in the following areas to ensure the development of a user- friendly, interactive and visually appealing website:

- Information Architecture
- User-experience design
- interaction design
- front-end development
- back-end development
- content strategy
- usability engineering
- visual design
- Drupal 7 Design and Development

1.2.4 Logistic capacity

No travel is foreseen. Bidders are expected to have all technical capabilities to conduct remote conferencing for meetings with UNAIDS and remote connectivity for installation and training

1.2.5 Staffing

Senior technical expert/s, researchers and web developers available for the project duration, using the Drupal 7, content management system.

1.3 Work to be performed

1.3.1 Key requirements

The main deliverable for this project is the design and optionally the development of the UNAIDS web portal whose intended audiences are donor countries, funding institutions, members of the Programme Coordinating Board (PCB), including non-governmental organizations (NGOs) and civil society.

The portal, currently with a working title “Investing for results”, should be able to accommodate the information and meet accountability requirements vis-à-vis UNAIDS constituents.

This proposed UNAIDS web portal should have a simple, neat and graphically appealing design. It should be user-friendly, responsive and equipped with advance dynamic and interactive features and utilizing a wide array of visuals, graphics, video clips and other multi-media materials. Content-wise, the new portal should allow for transparency about UNAIDS’ objectives, budget, expenditure and results through an abundant amount of information with links to more details.

Site Architecture

The UNAIDS web portal shall have at least the following key elements

[Annex 1: Outline of the Portal and Annex 2: Architecture of the site to view the schematic diagram and specific contents in hierarchical sequence]

Section I: UNAIDS' Vision of three zeroes, 10 targets, now and beyond 2015

- Zero new infections
- Zero AIDS-related deaths
- Zero discrimination

Section II: Where and how UNAIDS works

- Regions and countries
- How we lead, engage and advocate
- How we convene, partner, coordinate
- How we hold ourselves accountable
- How we galvanize efficiency

Section III: Funding

Main features

This UNAIDS web portal should have the following technical features:

- A flexible front page to highlight relevant news and/or coincide with special events or summits;
- Video capability: videos will be hosted on YouTube and the Portal will embed a video player in its web pages (the embedded player must run on Internet Explorer, Chrome, Safari and Firefox as well as mobile devices); Interactive maps and clickable icons and photos that facilitate navigation from page to page
- Reflect the UNAIDS branding standards
- Responsive design - works on desktop, laptop, tablet and smartphone;
- Easy, intuitive, rapid, and searchable access to:
 - new documents and resources (with the ability to 'showcase' new/major publications)
 - external resources
 - Document format: only PDF documents will be stored on the UNAIDS portal.

I. New design layout

The graphic design of the Portal is an important component of the project. The proposal must contain at least three examples of recent web designs done for other clients and a proposed mock-up of the UNAIDS portal.

II. Social Media

The Portal will be hosted in the UNAIDS public website¹, <http://www.unaids.org>. Thus, it should be possible for the end user to share and bookmark content coming from portal to Facebook, Google+, Twitter, etc.

III. Technical considerations

The Portal must run on the following technologies:

- CMS: Drupal 7
- Database: MySQL 5.x
- Operating system: the solution should run on both MS Windows and Linux platforms

¹ There are two options: a) URL is "under" the www.unaids.org umbrella, e.g. webportal.unaids.org; or b) an independent URL, e.g. unaidsportal.org.

As much as possible, only standard Drupal modules should be used. If custom development is required, this must be stated in the proposal. If custom development cannot be avoided, it should be done in a way that it would not be affected by future Drupal core and module updates.

The Drupal 7 CMS and the Portal will be installed as a single web application. The site will require an access to an SMTP server for sending email notifications. All the content is stored in a single MySQL database. The Portal must run on the latest versions of Google Chrome, Firefox, Safari and Internet Explorer and must also run on mobile devices browsers..

IV. Functional requirements

The Portal task team will define the management and operation of the Portal after its development, including assigning staff who will take on the following roles and responsibilities.

- **Roles:**
 - Administrator has full access of the system and can perform any administrative (system) tasks
 - Manager: can create modify and delete any content, A manager can also create/delete new users, assign roles to users, manage membership requests.
 - Anonymous user: can access public content
- **Document management:**

The Portal should allow the Manager to upload/delete documents. It should be possible to attach a document to a page, automatically create thumbnail of the first page and link a document to its thumbnail.

Methodology

The following process and estimated timeframe is proposed for the design and development of the UNAIDS web portal.

Stage 1: Inception:

Consists of a meeting with the Portal task team composed of representatives from various divisions/departments in the UNAIDS Secretariat, namely: Executive Office (EXO), Resource Mobilization (RMO), Planning, Finance and Accountability (PFA) and Information Management (IMD), at which the design plan with a timeline and submission of the mockup (one or several options, if deemed of use), will be and presented. The plan and mockup will be presented to the UNAIDS Communications and Advocacy Department for feedback and approval. The selected design can be subject to modification and adjustment (Expected conclusion 3 weeks after contract award)

Stage 2: Development: Development of the Portal. (Expected conclusion 4 weeks after clearance of detailed design). Regular meetings will be scheduled to monitor the progress of the development (the selected bidder will provide the staging environment). The final review will be performed on UNAIDS servers. In other words, the deliverables of stage 2 will include a MySQL backup, a site folder containing the files required to run the site and the configuration/installation instructions.

Stage 3: Review / Testing: Review and testing of new Portal by the task team, finishing touches, and training of the assigned UNAIDS staff to manage the website (Expected conclusion 6 weeks after clearance of detailed design).

Stage 4: Launch: 23 June 2014, on the occasion of the 34th meeting of the Programme Coordinating Board (PCB). Include 1 month warranty for bugs and issues discovered

Stage 5: 6 Months remote support for the management of the portal (1 July 2014 to 31 December 2014)

The work is proposed to be conducted in 2 components:

(I) COMPONENT A:

This component includes the inception analysis and detailed design. The expected deliverables are:

- Three mockups
- HTML / javascript code of the selected mockup (Drupal compliant)
- CSS files (responsive)
- Images and any other resources required for the Portal

(II) COMPONENT B:

This component includes development of the portal, review/testing, launch and remote support. The expected deliverables are:

- MySQL database backup
- Site related files
- Technical documentation including installation guide, site architecture, code and development documentation (if applicable).

Bidders are invited to provide their offers for Component A only or for component A and B, providing prices for each separately.

UNAIDS will award the contract either for component A only or for both components. No proposal may be withdrawn in the interval between the opening date and the expiration of the period of proposal validity specified by the bidder in the proposal.

2.12 Receipt of Proposals from Non-invitees

UNAIDS may, at its own discretion, extend the RFP to bidders that were not included in the individual invitation list if this is necessary and in the interest of UNAIDS. RFPs published by UNAIDS on the UNAIDS website are open for all qualified bidders.

At any time prior to the closing date for submission of proposals, UNAIDS may, for any reason, whether on its own initiative or in response to a clarification requested by a bidder, modify the RFP by amendment. Amendments could include modification of project scope or requirements, project timeline expectations or extension of the closing date for submission.

All prospective bidders that have received the RFP will be notified in writing of all amendments to the RFP. In addition, all amendments will be posted on the UNAIDS website in the Request for Proposals section and in any other website used by UNAIDS directly for publishing the Request for Proposals.

3. OPENING AND EVALUATION OF PROPOSALS

3.1 Opening of Proposals

UNAIDS will open the technical proposals in the presence of a Committee formed by UNAIDS at the Headquarters office in Geneva, Switzerland on a date fixed after the closing of the tendering period. Each technical proposal will be opened during the session with each bidder announced. Financial proposals will be opened only after the technical evaluation of the proposals.

There will not be a public opening of bids.

3.2 Clarification of Proposals

UNAIDS may, at its discretion, ask any bidder for clarification of any part of its proposal to assist in the examination, evaluation and comparison of proposals. The request for clarification and the response shall be in writing. No change in price or substance of the proposal shall be sought, offered or permitted during this exchange.

3.3 Preliminary Examination of Proposals

UNAIDS will examine the proposals to determine whether: (i) they are complete, (ii) any computational errors have been made, (iii) the documents have been properly signed, and (iv) the proposals are generally in order.

Please note that UNAIDS is not bound to select any of the firms/institutions submitting proposals. Furthermore, since a contract would be awarded in respect of the proposal which is considered most responsive to the needs of the project concerned, due consideration being given to UNAIDS' general principles, including economy and efficiency, UNAIDS does not bind itself in any way to select the firm/institution offering the lowest price.

3.4 Technical Evaluation of Proposals

A two-stage procedure will be utilized in evaluating the proposals, with technical evaluation of the proposal being completed prior to any evaluation of the Financial Proposal.

The technical evaluation of proposals will be accomplished by a selection panel. The selection panel will evaluate all proposals which have passed the preliminary examination of proposals according to:

- the quality of the overall proposal (15 Points);
- the quality of the technical solution proposed (25 Points);
- the management strategy/plan detailed in the document (10 Points);
- the experience of the firm in carrying out related projects (20 Points);
- the qualifications and competence of the personnel proposed for the assignment (20 Points);
- the proposed timeframe for the project (10 Points);

The obtainable number of points specified for each evaluation criterion indicates the relative significance or weight of the item in the overall evaluation process. The points allocated to the technical proposal correspond to 60% of the total obtainable points.

3.5 Financial Proposal Evaluation

The financial proposal will only be evaluated if the technical proposal achieves a minimum of 60% of the total allocable points for the technical evaluation. Proposals failing to obtain this minimum threshold will not be eligible for further consideration.

The maximum number of points for the price component is 40% of the total obtainable points.

This maximum number of points will be allocated to the lowest price proposal. All other price proposals will receive points in inverse proportion according to the following formula:

Points for the price component of a proposal being evaluated = ([Maximum number of points for the price component] x [Lowest price]) / [Price of proposal being evaluated]

3.6 Bidders' Presentations

At the discretion of UNAIDS, selected bidders may be invited to supply additional information on the contents of their proposal during the evaluation period. Such bidders could be asked to give a presentation of their proposal (possibly with an emphasis on a topic of UNAIDS's choice) followed by a question and answer session. If UNAIDS determines that there is such a need, the presentation will be held at UNAIDS Headquarters in Geneva, or by videoconference/Internet. Bidders will be given reasonable time to prepare for the presentation.

NOTE: Presentations or other individual contact is expressly prohibited before the closing date for proposal submission.

4. AWARD OF CONTRACT

4.1 Award Criteria, Award of Contract

UNAIDS reserves the right to:

- a) Award the contract to a bidder of its choice, even if its bid is not the lowest;
- b) Award separate contracts for parts of the work, components or items, to one or more bidders of its choice, even if their bids are not the lowest;
- c) Accept or reject any proposal, and to annul the solicitation process and reject all proposals at any time prior to award of contract, without thereby incurring any liability to the affected bidder or bidders and without any obligation to inform the affected bidder or bidders of the grounds for UNAIDS' action;
- d) Award the contract on the basis of UNAIDS' particular objectives to a bidder whose proposal is considered to be the most responsive to the needs of the Organization and the activity concerned;
- e) Not award any contract at all.

NOTE: UNAIDS is acting in good faith by issuing this RFP. However, this document does not obligate UNAIDS to contract for the supply of any products or services.

4.1.1 Right to modify Scope or Requirements during the Proposal Process

UNAIDS reserves the right to, at any time during the proposal process, modify the scope of services and goods specified in the RFP. At any time in the selection process, UNAIDS reserves the right to issue an amendment to the RFP detailing the change which should be notified only to bidders who have not been officially eliminated due to technical reasons at that point in time.

4.1.2 Right to Extend/Revise Scope or Requirements at Time of Award

UNAIDS reserves the right, at the time of award of contract, to extend/revise the scope of services and goods specified in the RFP without any change in the base price of services and goods or other terms and conditions offered by the selected bidder.

UNAIDS reserves the right to enter into negotiations, with one or more bidders that have not been eliminated during the evaluation process, including but not limited to negotiations of the terms of the proposal(s), the price quoted in such proposal(s) and/or the deletion of certain parts of the work, components or items called for under this RFP..

4.2 Signing of the Contract

Within 30 days of receipt of the contract the successful bidder shall sign and date the contract and return it to UNAIDS according to the instructions provided at that time. If the bidder does not accept the contract terms without changes, then UNAIDS has the right not to proceed with the selected bidder and instead contract with another bidder of its choice.

The award of contract will be published in the UNAIDS public website, after all internal clearances and acceptance of the contract by the selected bidder.

5. GENERAL AND CONTRACTUAL CONDITIONS

The contract between UNAIDS and the selected bidder ("the Contract") will, unless otherwise explicitly agreed in writing, include the provisions as set forth in this section, and will otherwise inter alia address the following issues:

5.1 Conditions of Contract

Any and all of the Contractor's (general and/or special) conditions of contract are hereby explicitly excluded from the Contract, i.e., regardless of whether such conditions are included in the Contractor's offer, or printed or referred to on the Contractor's letterhead, invoices and/or other material, documentation or communications.

5.2 Responsibility

The Contractor will be responsible to ensure that the work performed under the Contract meets the agreed specifications and is completed within the time prescribed. The Contractor shall facilitate the operational audit related to the execution of the work and the compliance with the obligations set forth in the Contract, by persons so designated by UNAIDS. The Contractor furthermore warrants that the deliverables shall be error-free, in that the Contractor shall correct any errors in the deliverables, free of charge, within fifteen days after their notification to the Contractor, during a period of at least six months after completion of the work. The Contractor furthermore warrants and represent that the information provided by it to UNAIDS in response to the RFP and during the bid evaluation process is accurate and complete. The Contractor understands that in the event The Contractor has failed to disclose any relevant information which may have impacted UNAIDS' decision to award the Contract to The Contractor, or has provided false information, UNAIDS will be entitled to rescind the contract with immediate effect, in addition to any other remedies which UNAIDS may have by contract or by law

5.5 Legal Status

The Contractor shall be considered as having the legal status of an independent contractor vis-à-vis UNAIDS, and nothing contained in or relating to the Contract shall be construed as establishing or creating an employer/employee relationship between UNAIDS, on the one hand, and the Contractor or any person used by the Contractor in the performance of the work, on the other hand.

Thus the Contractor shall be solely responsible for the manner in which the work is carried out. UNAIDS shall not be responsible for any loss, accident, damage or injury, suffered by the Contractor or persons or entities claiming under the Contractor, arising during or as a result of the implementation or execution of the Contract, including travel, whether sustained on UNAIDS premises or not.
