- 1) Maintenance and administration of www.uncares.org and sub-sites, as explained below.
- 2) Layout and Electronic Distribution of bi-weekly newsletter drafted by UN Cares

Description of the main website and sub-sites:

UN Cares website (www.uncares.org). This is a public website for all UN employees and their families. It focuses on HIV in the UN workplace. The site is available in English, French and Spanish and contains basic information about HIV prevention, treatment and care; UN policies, videos, learning guides and more. The site is multi-faceted and includes, text, video and interactive features. Content is provided by the UN Cares team in Geneva or New York. The homepage is updated every month. The rest of the content is mostly static, requiring minor updates every semester on average. The website receives over 10,000 hits per day and serves, on average, over 500MB daily. Most visitors who come to the site explore it rather than leave right away, or return to it again after leaving it, as indicated by the much smaller number of average daily visitors (350) compared with the hits (10,000).

The UN Cares website requires periodic maintenance and regular updates to front page articles. The Content Management System is Drupal and is hosted in a shared server environment with Pair Networks. It is the key communication and reference tool for the Learning Facilitators. This is a registration-based website that only authorized people can join.

The consultant will provide ongoing administration, maintenance, and updates to this Web application which is hosted on a shared server environment at Pair Networks and based on the popular content management system, TikiWiki. In addition, the consultant will provide registration support to users, which includes assuring that all registered users are assigned the appropriate administrative permissions that will allow them to post information on the site according to their country, region, and administrative status. Frequent interaction with owners/content-managers is required pertaining to ongoing site improvements (e.g., navigation, organization, look-and-feel, functionalities), user training and help-support. It also includes responding to queries about content, navigation and technical problems from owners and users on an ongoing basis, often with very short deadlines.

The consultant will also provide and support back-up and disaster-recovery plans and perform performance tuning on an ongoing basis as needed, and produce periodic customized user usage reports as needed.

The request for clarification and the response shall be in writing. No change in price or substance of the proposal shall be sought, offered or permitted during this exchange.

3.3 Preliminary Examination of Proposals

UNAIDS will examine the proposals to determine whether: (i) they are complete, (ii) any computational errors have been made, (iii) the documents have been properly signed, and (iv) the proposals are generally in order.

Please note that UNAIDS is not bound to select any of the firms/institutions submitting proposals. Furthermore, since a contract would be awarded in respect of the proposal which is considered most responsive to the needs of the project concerned, due consideration being given to UNAIDS' general principles, including economy and efficiency, UNAIDS does not bind itself in any way to select the firm/institution offering the lowest price.

3.4 Technical Evaluation of Proposals

A two-stage procedure will be utilized in evaluating the proposals, with technical evaluation of the proposal being completed prior to any evaluation of the Financial Proposal.

The technical evaluation of proposals will be accomplished by a selection panel. The selection panel will evaluate all proposals which have passed the preliminary examination of proposals according to:

The obtainable number of points specified for each evaluation criterion indicates the relative significance or weight of the item in the overall evaluation process. The points allocated to the technical proposal correspond to 60% of the total obtainable points.

3.5 Financial Proposal Evaluation

The financial proposal will only be evaluated if the technical proposal achieves a minimum of 60% of the total allocable points for the technical evaluation. Proposals failing to obtain this minimum threshold will not be eligible for further consideration.

The maximum number of points for the price component is 40% of the total obtainable points.

This maximum number of points will be allocated to the lowest price proposal. All other price proposals will receive points in inverse proportion according to the following formula:

Points for the price component of a proposal being evaluated = $([\text{Maximum number of points for the price component}] \times [\text{Lowest price}] / [\text{Price of proposal being evaluated}]$

3.6 Bidders' Presentations

At the discretion of UNAIDS, selected bidders may be invited to supply additional information on the contents of their proposal during the evaluation period. Such bidders could be asked to give a presentation of their proposal (possibly with an emphasis on a topic of UNAIDS's choice) followed by a question and answer session. If UNAIDS determines that there is such a need, the presentation will be held at UNAIDS Headquarters in Geneva, or by videoconference/Internet. Bidders will be given reasonable time to prepare for the presentation.

NOTE: Presentations or other individual contact is expressly prohibited before the closing date for proposal submission.

UNAIDS reserves the right to, at any time during the proposal process, modify the scope of services and goods specified in the RFP. At any time in the selection process, UNAIDS reserves the right to issue an amendment to the RFP detailing the change which should be notified only to bidders who have not been officially eliminated due to technical reasons at that point in time.

The award of contract will be published in the UNAIDS public website, after all internal clearances and acceptance of the contract by the selected bidder.

5. GENERAL AND CONTRACTUAL CONDITIONS

The contract between UNAIDS and the selected bidder ("the Contract") will, unless otherwise explicitly agreed in writing, include the provisions as set forth in this section, and will otherwise inter alia address the following issues:

Any and all of the Contractor's (general and/or special) conditions of contract are hereby explicitly excluded from the Contract, i.e., regardless of whether such conditions are included in the Contractor's offer, or printed or referred to on the Contractor's letterhead, invoices and/or other material, documentation or communications.

5.2 Responsibility

The Contractor will be responsible to ensure that the work performed under the Contract meets the agreed specifications and is completed within the time prescribed. The Contractor shall facilitate the operational audit related to the execution of the work and the compliance with the obligations set forth in the Contract, by persons so designated by UNAIDS.
