1. INTRODUCTION

1.1 Objective of the RFP

The purpose of this Request for Proposal (RFP) is to enter into a contractual agreement with a successful bidder and select a suitable contractor **to assist UNAIDS in supporting the Economics Reference Group Technical Working groups on costing and technical efficiency, and sustainability of HIV financing as well as document country case studies/best practices related to transitioning towards increased domestic funding for HIV**

UNAIDS is an organization that is dependent on the budgetary and extra-budgetary contributions it receives for the implementation of its activities. Bidders are therefore requested to propose the best and most cost-effective solution to meet UNAIDS requirements, while ensuring a high level of service.

For more information about UNAIDS please consult our website www.unaids.org.

1.2 Characteristics of the bidder

1.2.1 Status

- The provider shall be a public institution, company, individual or NGO operating in the field of **development and health economics**, with proven expertise in **both quantitative and qualitative aspects of economics and financing of HIV especially with regards to fiscal space analysis, health insurance and health financing schemes, funding agreements including incentives and accountability mechanisms for reinforcing them.**

1.2.2 Accreditations

- No specific requirement.

1.2.3 Previous experience

- Previous work with an international or national institution operating in the **field health and development**
- Proven experience in **economics and financing of development, health and/or HIV programmes.**

1.2.4 Logistic capacity

- Established presence (either alone or through a consortium) in countries of focus: **is not necessary**. Access to equipment and connectivity to maintain continuous electronic communications during the period of the contract is required.
-

1.2.5 Staffing

- Staff assigned to the project must be able to provide senior expertise in macro - economics, economic analysis, economics of HIV, financing of HIV, health insurance and public policy writing.

1.3 Work to be performed

1.3.1 Key requirements

The contractor will be requested to:

1. Perform secretariat services for the HIV Economics Reference Group (ERG) Technical Working Group on costing and technical efficiency and the Technical Working Group on Sustainability of HIV financing as follows (one meeting per TWG per year) :

- **Meeting preparation:** Set agendas and identify and help convene the best experts for meetings of the sustainable financing and costing working groups. Collect relevant documents and draft a short background document or “pre-read” as needed for a given meeting. Ensure that the original research commissioned by the TWGs is distributed to participants in a timely manner.
- **Meeting facilitation:** Attend and help facilitate meetings, and help document their proceedings.
- **Meeting reports and next steps:** Draft summary reports following meetings, including options for next steps in research.

2. Country case studies on integrating HIV financing into health financing systems: The contractor will draft two country case studies for the TWG on sustainable financing to provide policy lessons on integrating HIV & AIDS funding with horizontal/general health financing mechanisms in countries in the context of the move towards universal health coverage. These studies will:

- Focus on two suitable countries, chosen in dialogue with UNAIDS, which have succeeded to at least some degree in integrating HIV services into their publicly financed health insurance programs,
- Use a consistent conceptual framework to evaluate policy experiences, and
- Draw heavily on on-the-ground data gathering and interviews, along with desk-based research, to develop the analysis.

These in-depth investigations will illustrate the historical and political processes that led to integration, describe the particular constraints, synergies, and pitfalls, and develop clear policy lessons about the process of integration.

The contractor will be requested to:

1. Perform secretariat services for the HIV Economics Reference Group (ERG) Technical Working Group on costing and technical efficiency and the Technical Working Group on Sustainability of HIV financing as follows (one meeting per TWG per year) :

- **Meeting preparation:** Set agendas and identify and help convene the best experts for meetings of the sustainable financing and costing working groups. Collect relevant documents and draft a short background document or “pre-read” as needed for a given meeting. Ensure that the original research commissioned by the TWGs is distributed to participants in a timely manner.
- **Meeting facilitation:** Attend and help facilitate meetings, and help document their proceedings.

Meeting reports and next steps: Draft summary reports following meetings, including options for next steps in research.

2. Concept note on incorporating metrics for country capacity to pay and mechanisms for incentivizing domestic financing into a fiscal space framework: This detailed concept note will advance research on the usefulness of metrics for gauging country capacity to pay and on mechanisms for incentivizing domestic financing by exploring whether and how the two could be jointly incorporated into a suggested framework of sustainably creating and enhancing fiscal space. While it may not be feasible to focus on fiscal capacity in a unique country for a single epidemic, this concept note will target a sample of countries with a high HIV burden to describe suitable metrics for assessing capacity to pay based on existing resource needs estimations and present preliminary insights on how the fiscal envelope could be sustainably expanded by incentivizing domestic financing in specific ways.

3. Country case study on transitioning from donor-based to domestic HIV financing: This country case study will advance UNAIDS’ earlier research on features of country compacts to structure and implement donor-to-domestic programmatic and funding transitions.

Specifically, the study will focus in detail on a country which is experiencing or has already gone through a full or partial financing transition with a donor to describe the nature and role of relevant options, tools, and quantitative metrics used for determining country and donor financing commitments and monitoring spending.

The case study will also document and evaluate the levers used to incentivize and increase domestic financing, contextualize the sources of this financing for sustainability, describe the process of harmonizing donor and domestic structures, and mention key events in the transition process.

The case study will build towards clear and generalizable messages about developing and implementing a pre-structured action plan for transition, with accompanying caveats about important contextual factors like income level, epidemic size, health system capacity, etc. Apart

from desk work to structure the analysis, the study will incorporate the views of donors and local and public partners on the ground as part of gathering data.

The country will be selected in collaboration with UNAIDS.

4. Country case studies on integrating HIV financing into health financing systems: The contractor will draft two country case studies for the TWG on sustainable financing to provide policy lessons on integrating HIV & AIDS funding with horizontal/general health financing mechanisms in countries in the context of the move towards universal health coverage. These studies will:

- Focus on two suitable countries, chosen in dialogue with UNAIDS, which have succeeded to at least some degree in integrating HIV services into their publicly financed health insurance programs,
- Use a consistent conceptual framework to evaluate policy experiences, and
- Draw heavily on on-the-ground data gathering and interviews, along with desk-based research, to develop the analysis.

These in-depth investigations will illustrate the historical and political processes that led to integration, describe the particular constraints, synergies, and pitfalls, and develop clear policy lessons about the process of integration.

UNAIDS will facilitate country contacts and obtaining of necessary available relevant documents through its country offices.

Approaches and methodologies proposed to carry out the tasks described above should be explained in detail in the proposal.

Outputs/ Deliverables:

1. Background papers, agendas, reports of the meetings for TWG on costing and technical efficiency (1 meeting) and TWG on Sustainability of HIV financing (1 meeting).
2. Concept not on integration of metrics for country capacity to pay and mechanisms for incentivizing domestic investment in AIDS into a fiscal space framework
3. One case study of a country that has partially or fully transitioned to domestic financing of HIV documenting options, tools and metrics to determine donor and country financial commitments, monitor spending and establish accountabilities.
4. Two (2) update reports on integration of HIV in two (2) countries (between 10-15 pages) including a description processes that lead to identify and adopt integration of HIV services into national health insurance and financial schemes as a means for sustainable HIV financing, its performance, strengths, weaknesses, lessons learnt, recommendations for the future.

For all the papers, initial outlines should be shared with UNAIDS for approval before proceeding with subsequent drafts. Subsequent drafts will be reviewed by responsible UNAIDS staff (HQ, Regional Teams and countries) and feedback will be provided to the contractors in due time. UNAIDS staff will facilitate contractors contacts with stakeholders in selected countries should the need arise.

In addition, all amendments will be posted on the UNAIDS website in the Request for Proposals section and in any other website used by UNAIDS directly for publishing the Request for Proposals.

3. OPENING AND EVALUATION OF PROPOSALS

3.1 Opening of Proposals

UNAIDS will open the technical proposals in the presence of a Committee formed by UNAIDS at the Headquarters office in Geneva, Switzerland on a date fixed after the closing of the tendering period. Each technical proposal will be opened during the session with each bidder announced. Financial proposals will be opened only after the technical evaluation of the proposals.

There will not be a public opening of bids.

3.2 Clarification of Proposals

UNAIDS may, at its discretion, ask any bidder for clarification of any part of its proposal to assist in the examination, evaluation and comparison of proposals. The request for clarification and the response shall be in writing. No change in price or substance of the proposal shall be sought, offered or permitted during this exchange.

3.3 Preliminary Examination of Proposals

UNAIDS will examine the proposals to determine whether: (i) they are complete, (ii) any computational errors have been made, (iii) the documents have been properly signed, and (iv) the proposals are generally in order.

Please note that UNAIDS is not bound to select any of the firms/institutions submitting proposals. Furthermore, since a contract would be awarded in respect of the proposal which is considered most responsive to the needs of the project concerned, due consideration being given to UNAIDS' general principles, including economy and efficiency, UNAIDS does not bind itself in any way to select the firm/institution offering the lowest price.

3.4 Technical Evaluation of Proposals

A two-stage procedure will be utilized in evaluating the proposals, with technical evaluation of the proposal being completed prior to any evaluation of the Financial Proposal.

The technical evaluation of proposals will be accomplished by a selection panel. The selection panel will evaluate all proposals which have passed the preliminary examination of proposals according to:

- the quality of the overall proposal (5 Points);
- the appropriateness of the proposed approach (12 Points);
- the quality of the technical solution proposed (12 Points);
- the management strategy/plan detailed in the document (8 Points);
- the experience of the firm in carrying out related projects (8 Points);
- the qualifications and competence of the personnel proposed for the assignment (7 Points);
- the proposed timeframe for the project (8 Points);

The obtainable number of points specified for each evaluation criterion indicates the relative significance or weight of the item in the overall evaluation process. The points allocated to the technical proposal correspond to 60% of the total obtainable points.

3.5 Financial Proposal Evaluation

The financial proposal will only be evaluated if the technical proposal achieves a minimum of 60% of the total allocable points for the technical evaluation. Proposals failing to obtain this minimum threshold will not be eligible for further consideration.

The maximum number of points for the price component is 40% of the total obtainable points.

This maximum number of points will be allocated to the lowest price proposal. All other price proposals will receive points in inverse proportion according to the following formula:

Points for the price component of a proposal being evaluated = ((Maximum number of points for the price component] x [Lowest price]) / [Price of proposal being evaluated]

3.6 Bidders' Presentations

At the discretion of UNAIDS, selected bidders may be invited to supply additional information on the contents of their proposal during the evaluation period. Such bidders could be asked to give a presentation of their proposal (possibly with an emphasis on a topic of UNAIDS's choice) followed by a question and answer session. If UNAIDS determines that there is such a need, the presentation will be held at UNAIDS Headquarters in Geneva, or by videoconference/Internet. Bidders will be given reasonable time to prepare for the presentation.

NOTE: Presentations or other individual contact is expressly prohibited before the closing date for proposal submission.

4. AWARD OF CONTRACT

4.1 Award Criteria, Award of Contract

UNAIDS reserves the right to accept or reject any proposal, and to annul the solicitation process and reject all proposals at any time prior to award of contract, without thereby incurring any liability to the affected bidder or any obligation to inform the affected bidder or bidders of the grounds for the UNAIDS' action.

Prior to expiration of the period of proposal validity, UNAIDS will award the contract to the qualified bidder(s) whose proposal, after being evaluated, is considered to be the most responsive to the needs of UNAIDS and activity concerned.

UNAIDS has the right to eliminate bids throughout the evaluation process. However, UNAIDS is under no obligation to state the reasons for elimination to the bidder.

NOTE: UNAIDS is **acting in good faith** by issuing this RFP. However, **this document does not obligate UNAIDS to contract for the supply of any products or services.**

4.1.1 UNAIDS's Right to modify Scope or Requirements during the Proposal Process

UNAIDS reserves the right to, at any time during the proposal process, modify the scope of services and goods specified in the RFP. At any step in the evaluation process, UNAIDS reserves the right to issue an amendment to the RFP detailing the change to only those bidders that have not been officially eliminated due to technical reasons at that point in time. Official elimination is signified by a direct communication to that effect from UNAIDS.

4.1.2 UNAIDS's Right to Extend/Revise Scope or Requirements at Time of Award

UNAIDS reserves the right, at the time of award of contract, to extend/revise the scope of services and goods specified in the RFP without any change in base price of services (e.g. day rate for resources) or other terms and conditions.

4.1.3 Right to enter into Contract Price Negotiations

UNAIDS reserves the right to enter into negotiations, with one or more bidders that have not been eliminated during the evaluation process, including but not limited to negotiations of the terms of the proposal(s), the price quoted in such proposal(s) and/or the deletion of certain parts of the work, components or items called for under this RFP..

4.2 Signing of the Contract

The Contractor also warrants that it is not and will not be involved in, or associated with, any entity involved in terrorism.

5.11 Indemnification

The Contractor shall indemnify, hold and save harmless, and defend, at its own expense, UNAIDS, its officials, agents, servants and employees from and against all suits, claims, demands, and liability of any nature or kind, including their costs and expenses, arising out of acts or omissions of the Contractor, or the Contractor's employees, officers, agents or sub-contractors, in the performance of this Contract.
