La implementación existe a través de un proyecto de intervención a través de organizaciones de base comunitaria.

Policy questions (2017)

Does your country have a national policy promoting community delivery of antiretroviral therapy?

No

What safeguards in laws, regulations and policies, if any, provide for the operation of CSOs/CBOs in your country?

-

Number of condoms and lubricants distributed by NGOs in the previous year

a) Male condoms:

93836

b) Female condoms:

0

c) Lubricants:

0
HIV expenditure

Ensure that HIV investments increase to US$ 26 billion by 2020, including a quarter for HIV prevention and 6% for social enablers

Progress summary

Existe presupuesto asignado a las intervenciones VHI, presupuesto que va en incremento a nivel regional y nacional según metas programadas establecidas.
Empowerment and access to justice

Empower people living with, at risk of and affected by HIV to know their rights and to access justice and legal services to prevent and challenge violations of human rights

Progress summary

A través de la CONAMUSA se contribuye a impulsar el empoderamiento de las personas afectadas por el VIH.

Policy questions (2016)

In the past two years have there been training and/or capacity building programmes for people living with HIV and key populations to educate them and raise their awareness concerning their rights (in the context of HIV) in your country?

Yes, one-off activities

Are there mechanisms in place to record and address cases of HIV-related discrimination (based on perceived HIV status and/or belonging to any key population)?

Denuncias a través de la défensoria del Pueblo

What accountability mechanisms in relation to discrimination and violations of human rights in healthcare settings does your country have, if any?

Complaints procedure

What barriers in accessing accountability mechanisms does your country have, if any?

Mechanisms do not function

Affordability constraints for people from marginalized and affected groups

Awareness or knowledge of how to use such mechanisms is limited
AIDS out of isolation

Commit to taking AIDS out of isolation through people-centred systems to improve universal health coverage, including treatment for tuberculosis, cervical cancer and hepatitis B and C

Progress summary

Se incluye en nuevo marco normativo.
