**8) Describe the process used for NCPI data gathering and validation:**

Après l'atelier de lancement du processus, deux points focaux chargés de coordonner la collecte des données ont été désignés: un pour la partie A et un pour la partie B. Pour la partie A, le questionnaire a été envoyé au secrétaire exécutif et au chargé de Suivi-Evaluation du CNLS, ainsi qu'au chef de la Division de Lutte contre le Sida du ministère de la santé et de son chargé de Suivi-

Evaluation. Ensuite les réponses ont été synthétisées sur un formulaire par un groupe restreint. Pour la partie B, le questionnaire a été envoyé à une trentaine d'organisations de la société civile et des partenaires, des réseaux de PVVIH, d'associations de MSM, etc. Ensuite un atelier regroupant les organisations clés ont fait la synthèse et partagé avec le grand groupe qui l'a validé.

**9) Describe the process used for resolving disagreements, if any, with respect to the responses to specific questions:**

Globalement, il ya eu très peu de désaccords. Le cas échéance l'équipe restreint a interpellé les répondants ou cherché les sources pour trancher la question. Lors de l'atelier de validation, un groupe de travail a fait le point sur les deux parties et a fait de suggestions qui sont intégrées dans le formulaire.

10)

**Highlight concerns, if any, related to the final NCPI data submitted (such as data quality, potential misinterpretation of questions and the like):**

La méthode participative a permis d'avoir des données de qualité avec de très faibles risques d'interprétations erronées.

**Part B, Section I: HUMAN RIGHTS****1. Does the country have laws and regulations that protect people living with HIV against discrimination? (including both general non-discrimination provisions and provisions that specifically mention HIV, focus on schooling, housing, employment, health care etc.)**

Yes (0)

## Page 84

169)

### Part B, Section I. HUMAN RIGHTS

#### 1.1 IF YES, specify if HIV is specifically mentioned and how or if this is a general nondiscrimination provision:

Le Sénégal s'est doté d'une loi sur le VIH à l'instar de la plupart des Etats de l'Afrique de l'Ouest. Seulement il n'existe pas encore de texte d'application. Ce qui pose irrémédiablement des difficultés d'appropriation notamment au niveau des acteurs de la société civile et des acteurs communautaires.

170)

#### 2. Does the country have non-discrimination laws or regulations which specify protections for most-at-risk populations and other vulnerable subpopulations?

Yes (0)

## Page 85

171)

### Part B, Section I. HUMAN RIGHTS

#### 2.1 IF YES, for which subpopulations?

a. Women	Yes
b. Young people	Yes
c. Injecting drug users	No
d. Men who have sex with men	No
e. SexWorkers	Yes
f. prison inmates	No
g. Migrants/mobile populations	Yes
Autre: Handicapés	Yes

172)

#### IF YES, briefly explain what mechanisms are in place to ensure these laws are implemented:

Cette année 2010, le Sénégal s'est doté d'une loi sur le VIH. Cependant le texte n'est pas encore promulgué, le décret d'application n'est pas encore publié.

173)

#### Briefly comment on the degree to which they are currently implemented:

Même si beaucoup se sont félicité de la mise en place de la loi dans notre pays, il est regrettable de constater aujourd'hui que le texte n'a pas encore été promulgué et aussi aucune initiative allant dans le sens de sa vulgarisation n'a été entreprise pour une large diffusion des dispositions contenues dans le texte. De même certains aspects comme la prise en compte des besoins spécifiques des femmes Vivant avec le VIH (autonomisation, participation aux instances de prises de décision, droit à la propriété etc.) ne sont pas pris en compte. La question de la pénalisation de l'infection volontaire a aussi suscité des inquiétudes pour les PVVIH qui risquent de se faire accuser à n'importe quel moment. Pour tout cela il importe de mener des actions pour une meilleure prise en compte des besoins des groupes vulnérables dans le cadre de l'application de la loi.

176)

**IF YES, briefly describe the content of these laws, regulations or policies:**

- La loi réprimant les relations sexuelles contre – nature - La limitation de l'âge légale de la pratique prostitutionnelle à 21 ans

177)

**Briefly comment on how they pose barriers:**

• La loi sur l'homosexualité pousse les hommes ayant des relations sexuelles avec d'autres a demeuré dans l'ombre ; elle affaiblit ainsi les initiatives de prévention et de prise en charge des IST/VIH au niveau de cette communauté • Les initiatives menées ça et là en guise de prévention

et de prise en charge des IST/VIH au niveau des TS ont fini par montrer l'importance numérique des travailleuses du sexe âgées de moins de 21 ans. La limite d'âge apportée à la pratique prostitutionnelle réduit les chances de ces TS à bénéficier des services de prise en charge et de prévention des IST/VIH

**Page 88****178) Part B, Section I. HUMAN RIGHTS**

**4. Is the promotion and protection of human rights explicitly mentioned in any HIV policy or strategy?**

Yes (0)

**Page 89****179)****Part B, Section I. HUMAN RIGHTS****Question 4 (continued)**

**IF YES, briefly describe how human rights are mentioned in this HIV policy or strategy:**

La lutte contre la stigmatisation et la discrimination doit être un axe essentiel de la réponse eu égard à la prévalence basse au Sénégal qui crée une perception d'exception de l'infection. Il s'agira d'aider les PVVIH à s'extérioriser, à se responsabiliser et de leur accorder un soutien dans leurs activités de plaidoyer et de soutien psychosocial. Le plan prévoit d'élargir le rôle des religieux dans le soutien psychosocial et l'accompagnement des PVVIH et des OEV, en particulier au niveau des familles et des communautés et renforcer leur rôle dans la lutte contre la stigmatisation. Les résultats et recommandations des études sur la stigmatisation et la discrimination permettront d'une part aux autorités d'améliorer le dispositif juridique et réglementaire pour lutter contre ces comportements aussi bien au niveau de la population que dans les milieux de travail y compris le milieu de soins et d'autre part de renforcer les capacités des acteurs de la lutte contre le SIDA dans la promotion des droits des PVVIH. Le projet de loi sur le SIDA sera pris en compte dans les stratégies proposées pour lutter contre la stigmatisation et la discrimination. Dans le secteur du travail, des entreprises privées et publiques seront amenées à appliquer les directives internationales sur la séropositivité et l'emploi.

**180)**

**5. Is there a mechanism to record, document and address cases of discrimination experienced by people living with HIV, most-at-risk populations and/or other vulnerable subpopulations?**

Yes (0)

**Page 90****181)****Part B, Section I. HUMAN RIGHTS****Question 5 (continued)**

**IF YES, briefly describe this mechanism:**

Le mécanisme (comité de veille) existe et il est logé au niveau du CNLS seulement quelques difficultés se posent quant à son efficacité et aussi la connaissance de son existence par les acteurs de la réponse. Donc à ce niveau des actions de communication autour du mécanisme sont à mener notamment au niveau des acteurs communautaires et des groupes hautement vulnérables (TS, MSM). Aucun membre de ces derniers groupes n'a connaissance de l'existence d'un tel mécanisme.

182)

**6. Has the Government, through political and financial support, involved people living with HIV, most-at-risk populations and/or other vulnerable subpopulations in governmental HIV-policy design and programme implementation?**
