I am gay. I face these issues.

My wife does not know that I have sex with men, so we do not use condoms

I cannot get the right lubricants to use with condoms

I am not gay and I do not want to go to a clinic that serves gay men

If I test HIVpositive, my own gay community will reject me I do not want to be arrested, so I cannot ask the doctor about my sexual health

Some of my friends were beaten up last night

If my family finds out I am gay, I will be thrown out of the house

My friends who accept me are my family

I get bullied at school and called names

> I need HIV treatment, but I do not want to be judged

My boss and colleagues make fun of gay people
