

Update on the AIDS response in the post-2015 development agenda

As one road comes to an end, a new journey begins

UNAIDS PCB, Geneva

26 Oct 2015

Together we have reached the end of a long road...

2030 Agenda for Sustainable Development:

- **Goal 3:** Ensure healthy lives and promote well-being for all at all ages
- **Target 3.3:** By 2030, end the epidemics of AIDS, tuberculosis, malaria...

The 2030 Agenda: A platform for action

1. Create global set of indicators that **leverage power of data** for leaving no one behind
2. Develop **global accountability framework that works for communities most affected** across SDGs
3. Embed **multi-sectoral work as the norm** not the exception
4. Critically examine how we work and **change to effectively deliver** on SDGs

Leveraging the power of data for leaving no one behind

Getting to zero

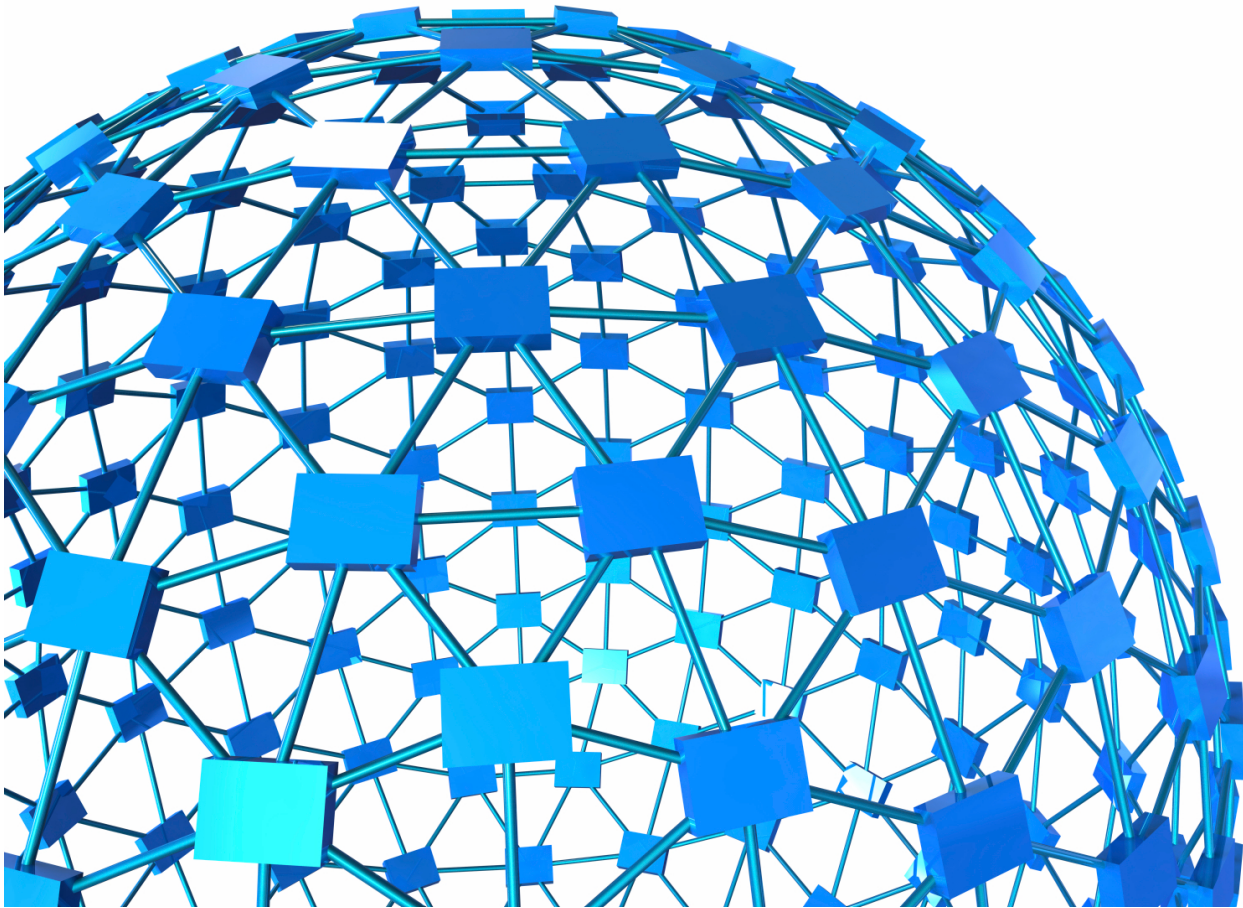

A global accountability framework that works for communities

Getting to zero

Multi-sectoral work as the norm

Changing the way we work

Getting to zero

Keeping up the momentum in 2016

Getting to zero

Let us seize the opportunities
of a new development agenda
to bend the curve of the AIDS
epidemic while catalyzing
action across the SDGs

Thank You!
