National AIDS Strategic Plan 2014-16: "Getting to Zero"

National Strategy to End AIDS 2017-30

Develop standard tools for health settings

Integrate SD in 5th National Health Examination Survey

1st National SD surveillance surveys in health settings

Integrate SD in 5th Multiple Indicators Cluster Survey

Integrate SD in IBBS for key populations

2nd National SD surveillance surveys in health settings

Integrate SD in IBBS for key population

3rd National SD surveillance surveys in healthcare settings

Launch community-led rights violation on-line report

Develop participatory training tool and 3 by 4 approach for health settings

Pilot 3 by 4 approach in 6 hospitals

Develop self-stigma reduction program

Pilot self-stigma reduction program in KPs

Expand the 3 by 4 approach to 48 hospitals

Pilot self-stigma reduction program in 3 hospitals

National roll-out of stigma-free health facilities

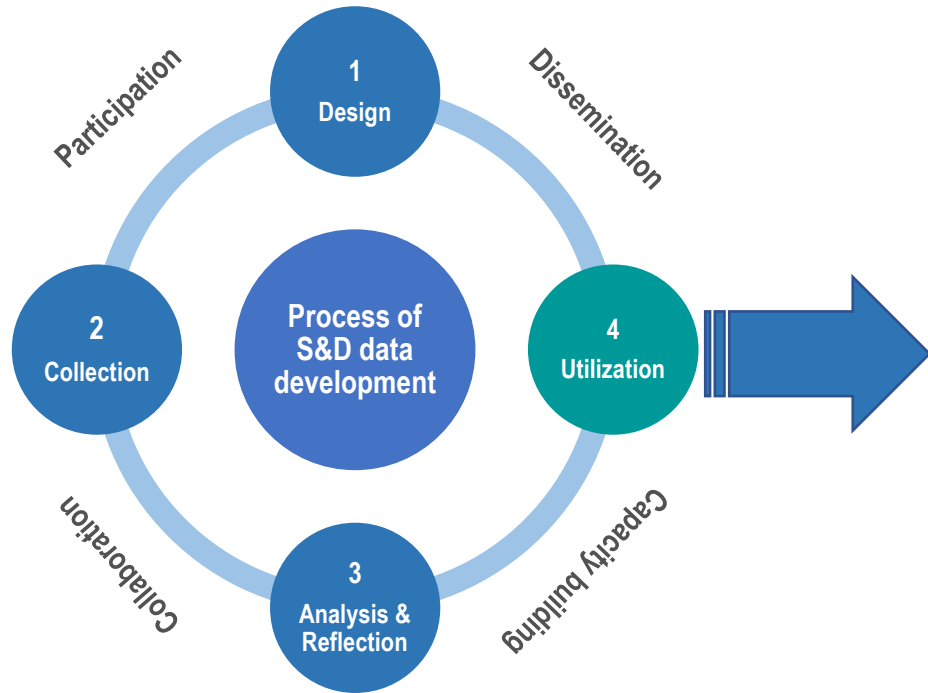

Launch E-learning for healthcare setting

Launch Thailand partnership to eliminate all forms of discrimination

SD: Stigma and Discrimination
IBBS: Integrated Biological and Behavioral Survey

From a comprehensive national S&D measurement to actionable evidence for actions

National Level

- Measure status and progress of country
- Advocate the national policymakers
- Develop S&D reduction interventions

Local Level

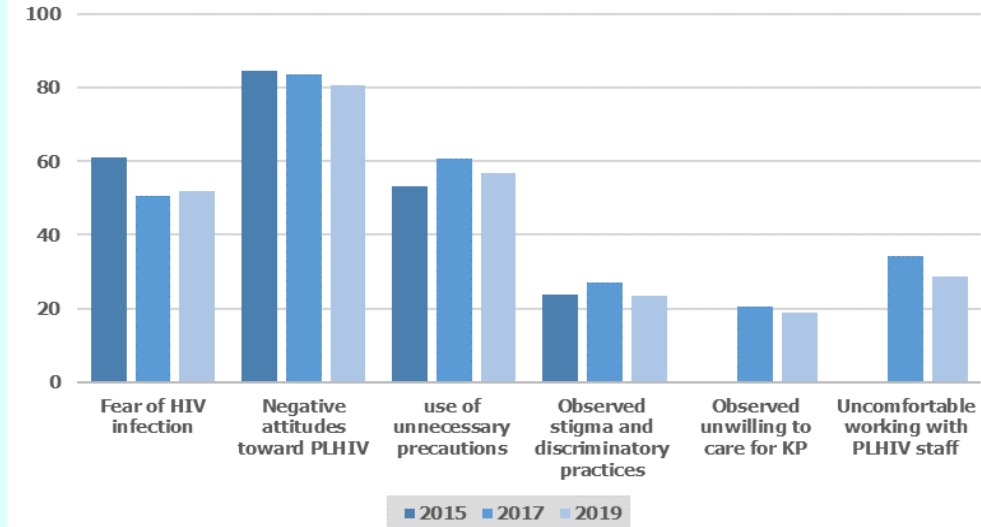

Policy at provincial level

- Advocate the local policy makers
- Measure status and progress in their area

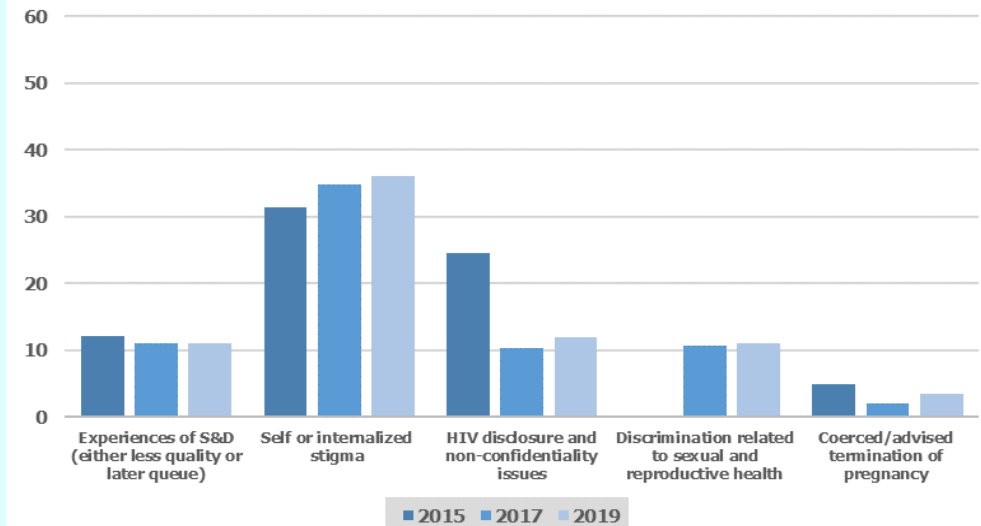

Organization level

- Plan and develop activities in the participating hospitals
- Provide right protection
- Measure the achievement of their interventions

Survey of **Health Personnel** in Health Care Facilities

Survey of **PLHA** in Health Care Facilities

UNAIDS Thematic Segment Agenda

Panel Discussion 2: Leveraging data to reduce HIV-related stigma and discrimination and improve quality of life

10/12/2021

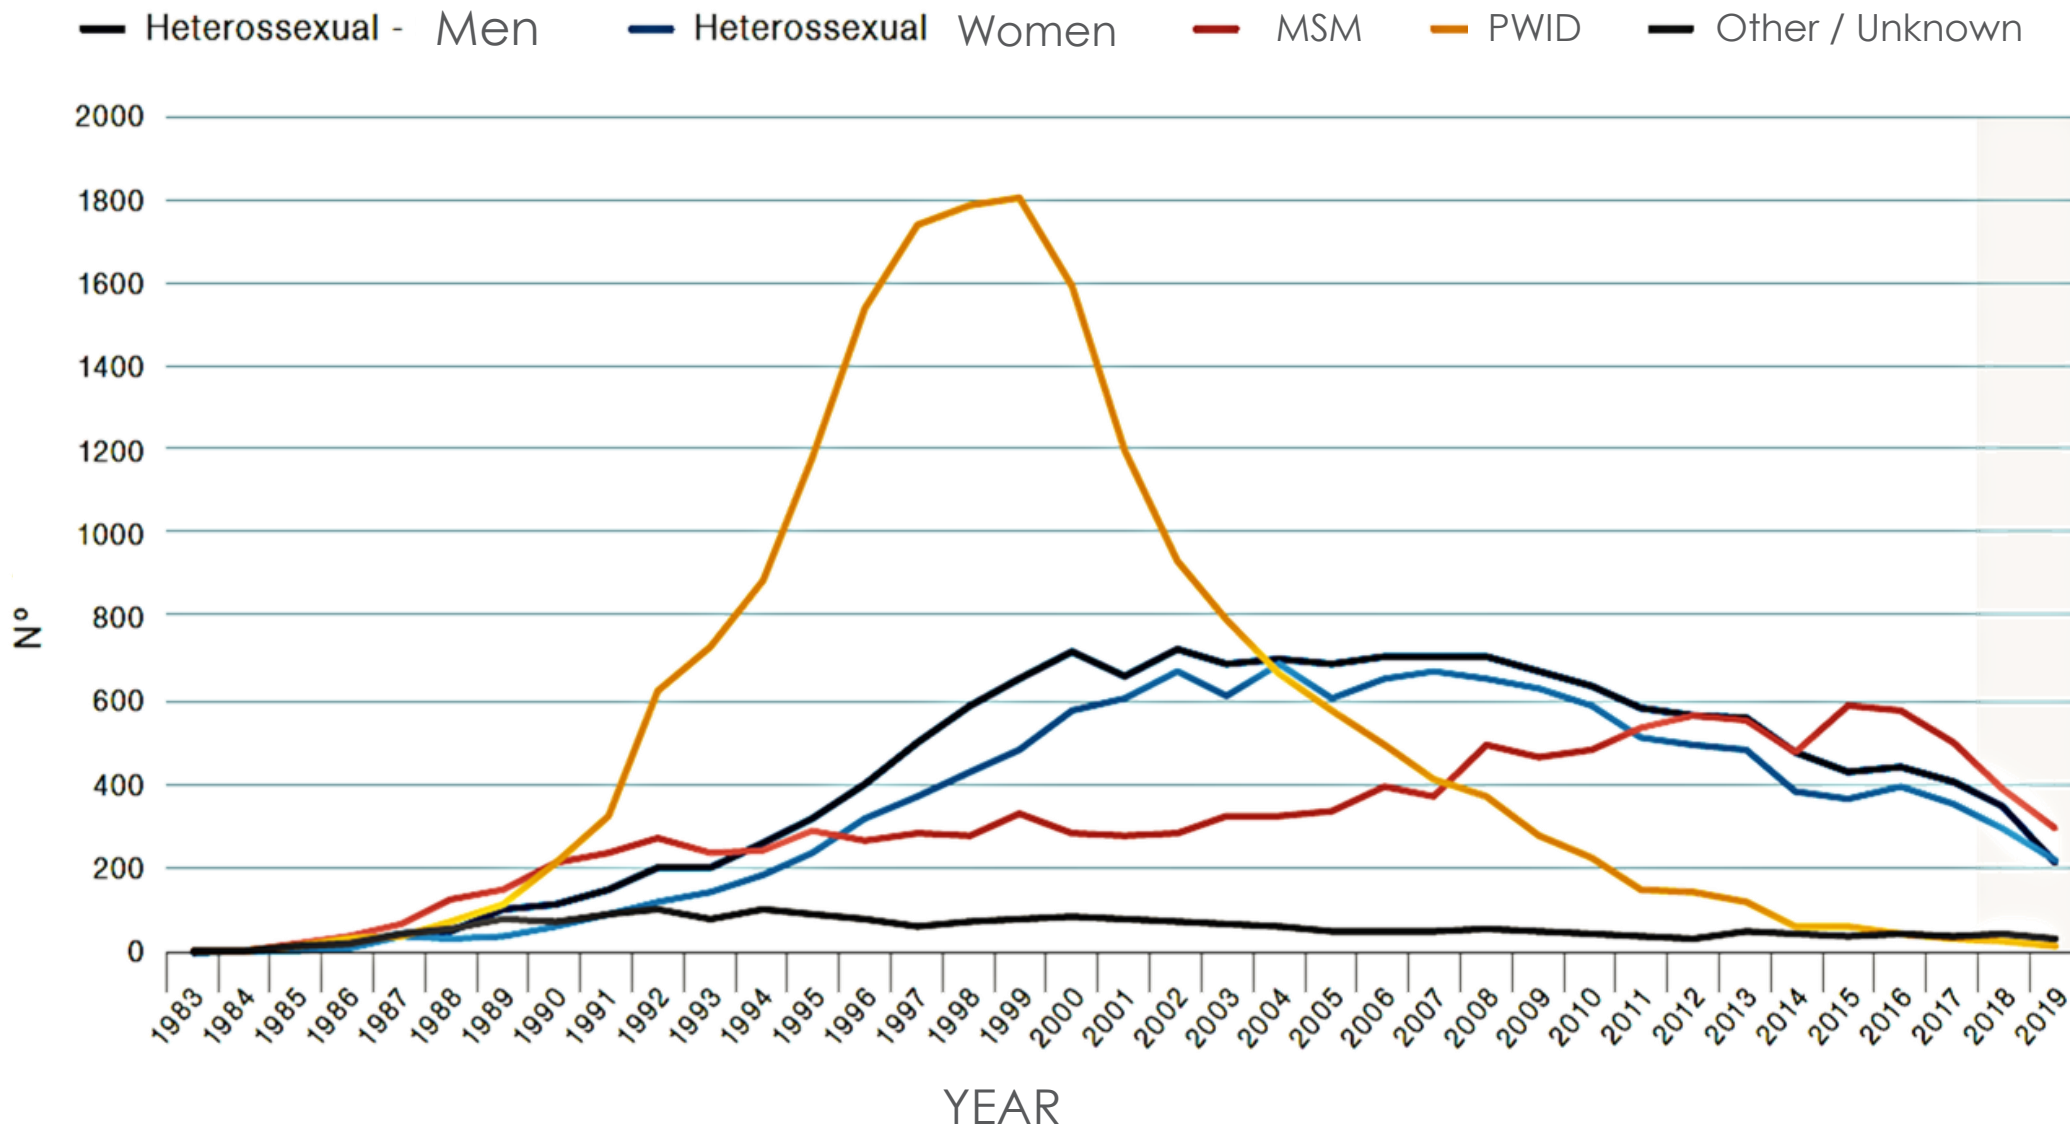

Domingos Duran

Head of Therapeutic Intervention Division

Planning and Intervention Department

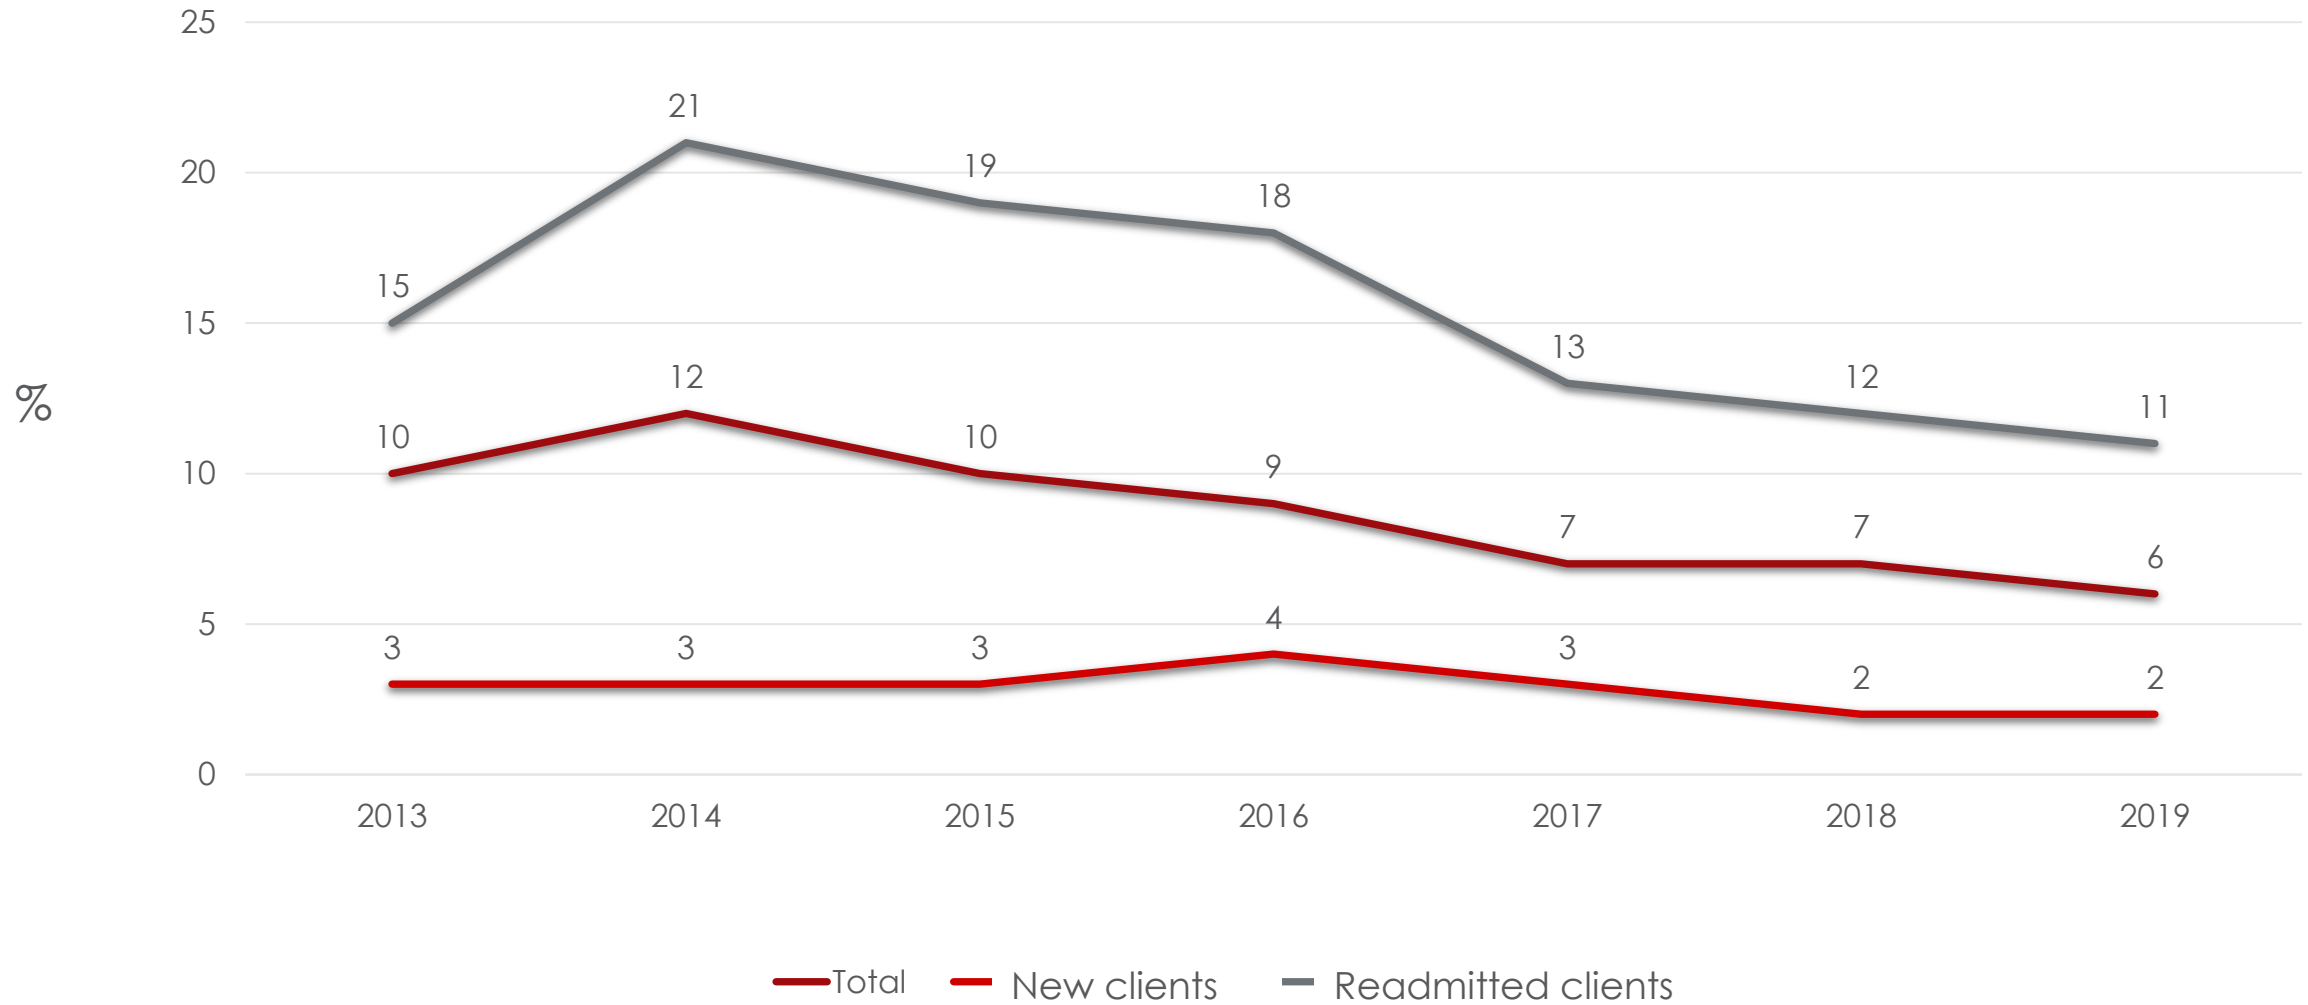

SICAD - General Directorate for Intervention on Addictive Behaviours and Dependencies

HIV: NEW INFECTIONS BY ORIGIN

Patients admitted in the year: Use of IV route in the past 12 months, by year

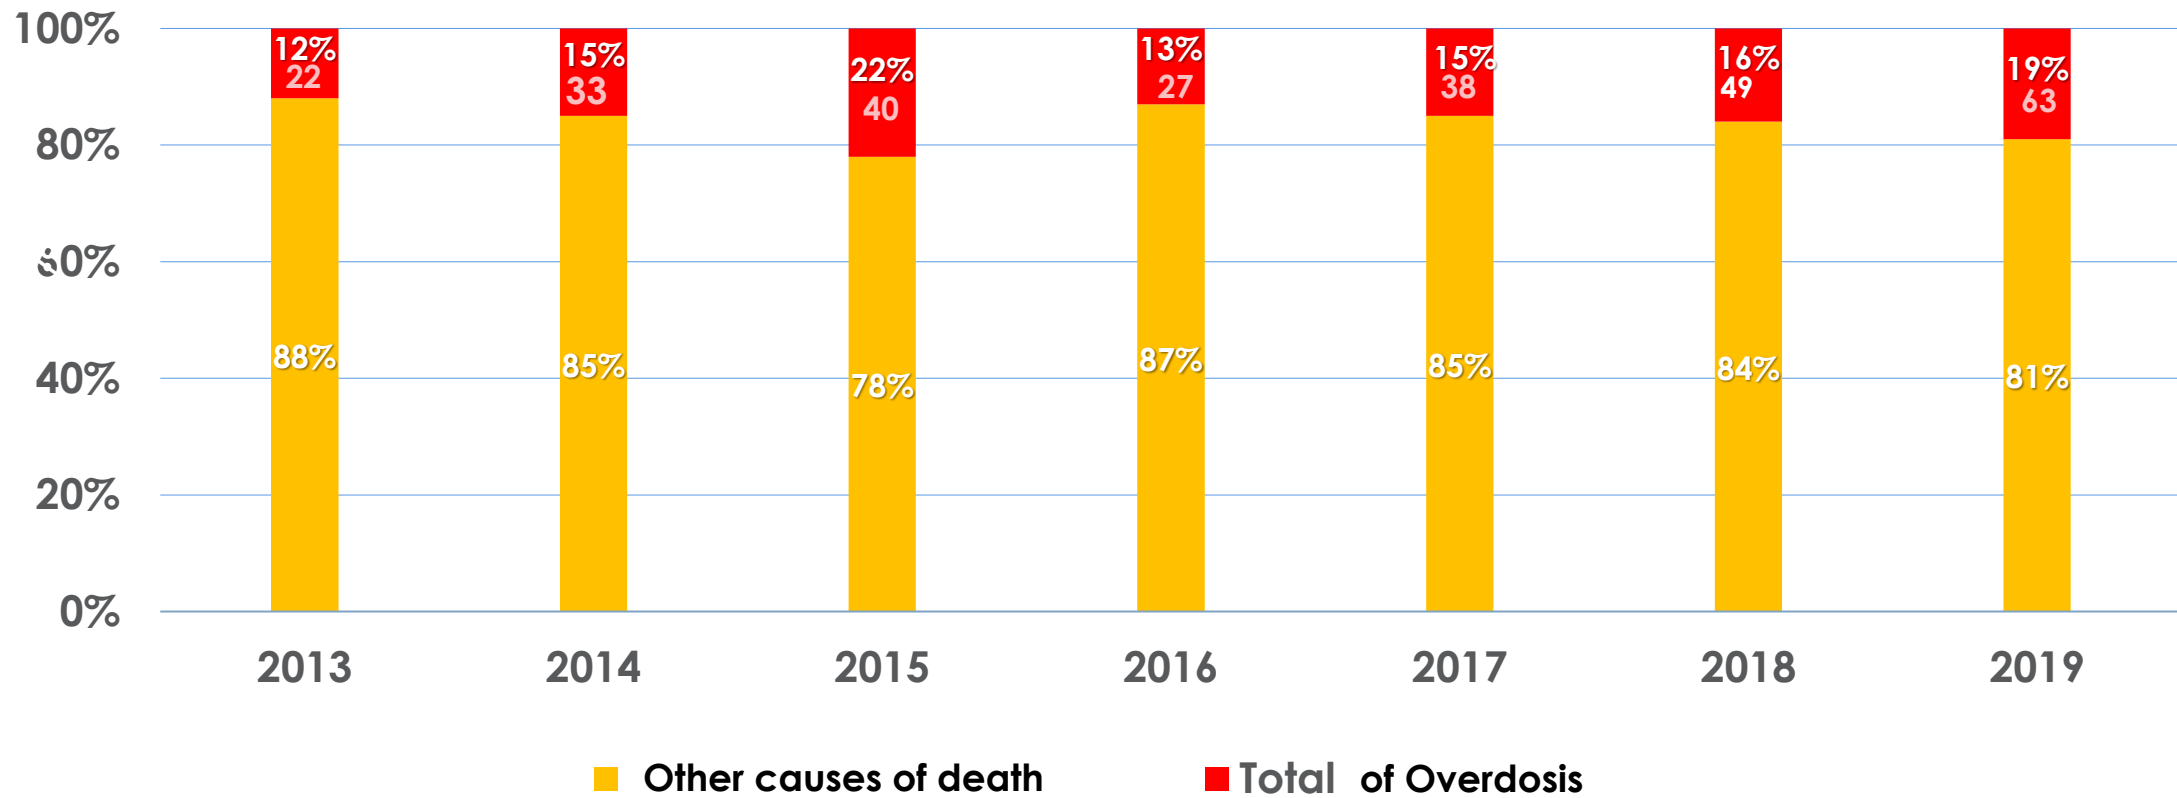

Public Network of Outpatient Services (Portugal Mainland)
2013 - 2019

Source: ARS/SICAD

Overdosis - Evolution of cases with information on the cause of death

2013 - 2019

Source: INMLCF

NEW CLIENTS – MAIN SUBSTANCE OF ABUSE

2011 - 2019

Retail price of drugs: Heroin and Cocaine

Until 2001:

- Heroin and Cocaine : same price per gram – approx. 16.000 Escudos (**80 Euros**)

From 2002 to 2004:

- Heroin and Cocaine : same price per gram – approx. **50% less** than until 2001

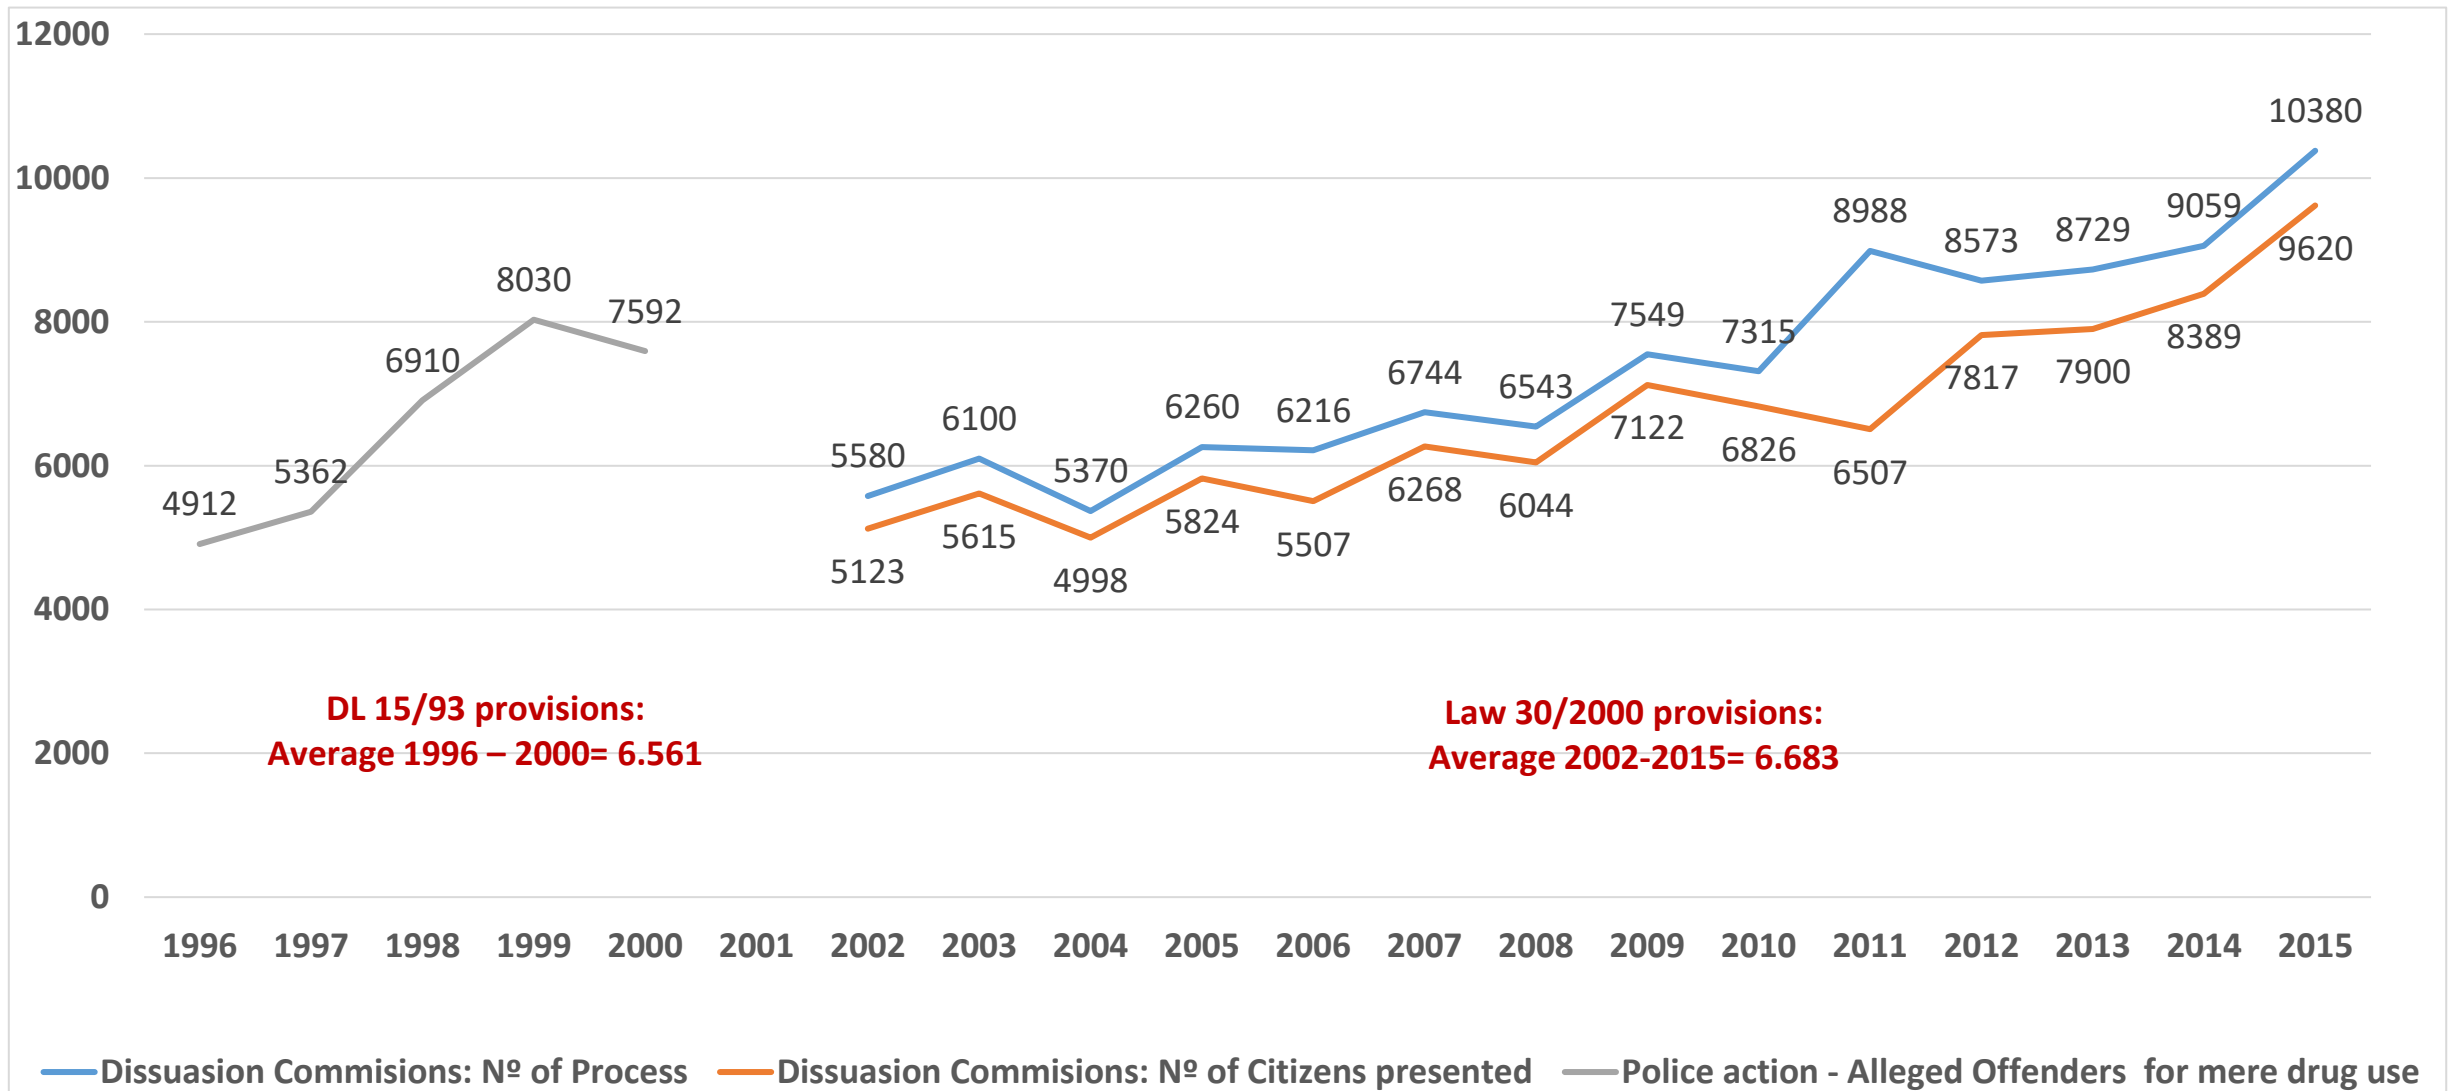

From 2004 to 2015:

- Heroin : prices followed a stable trend – similar to 2004;
- Cocaine: slightly more expensive than Heroin = + 20%

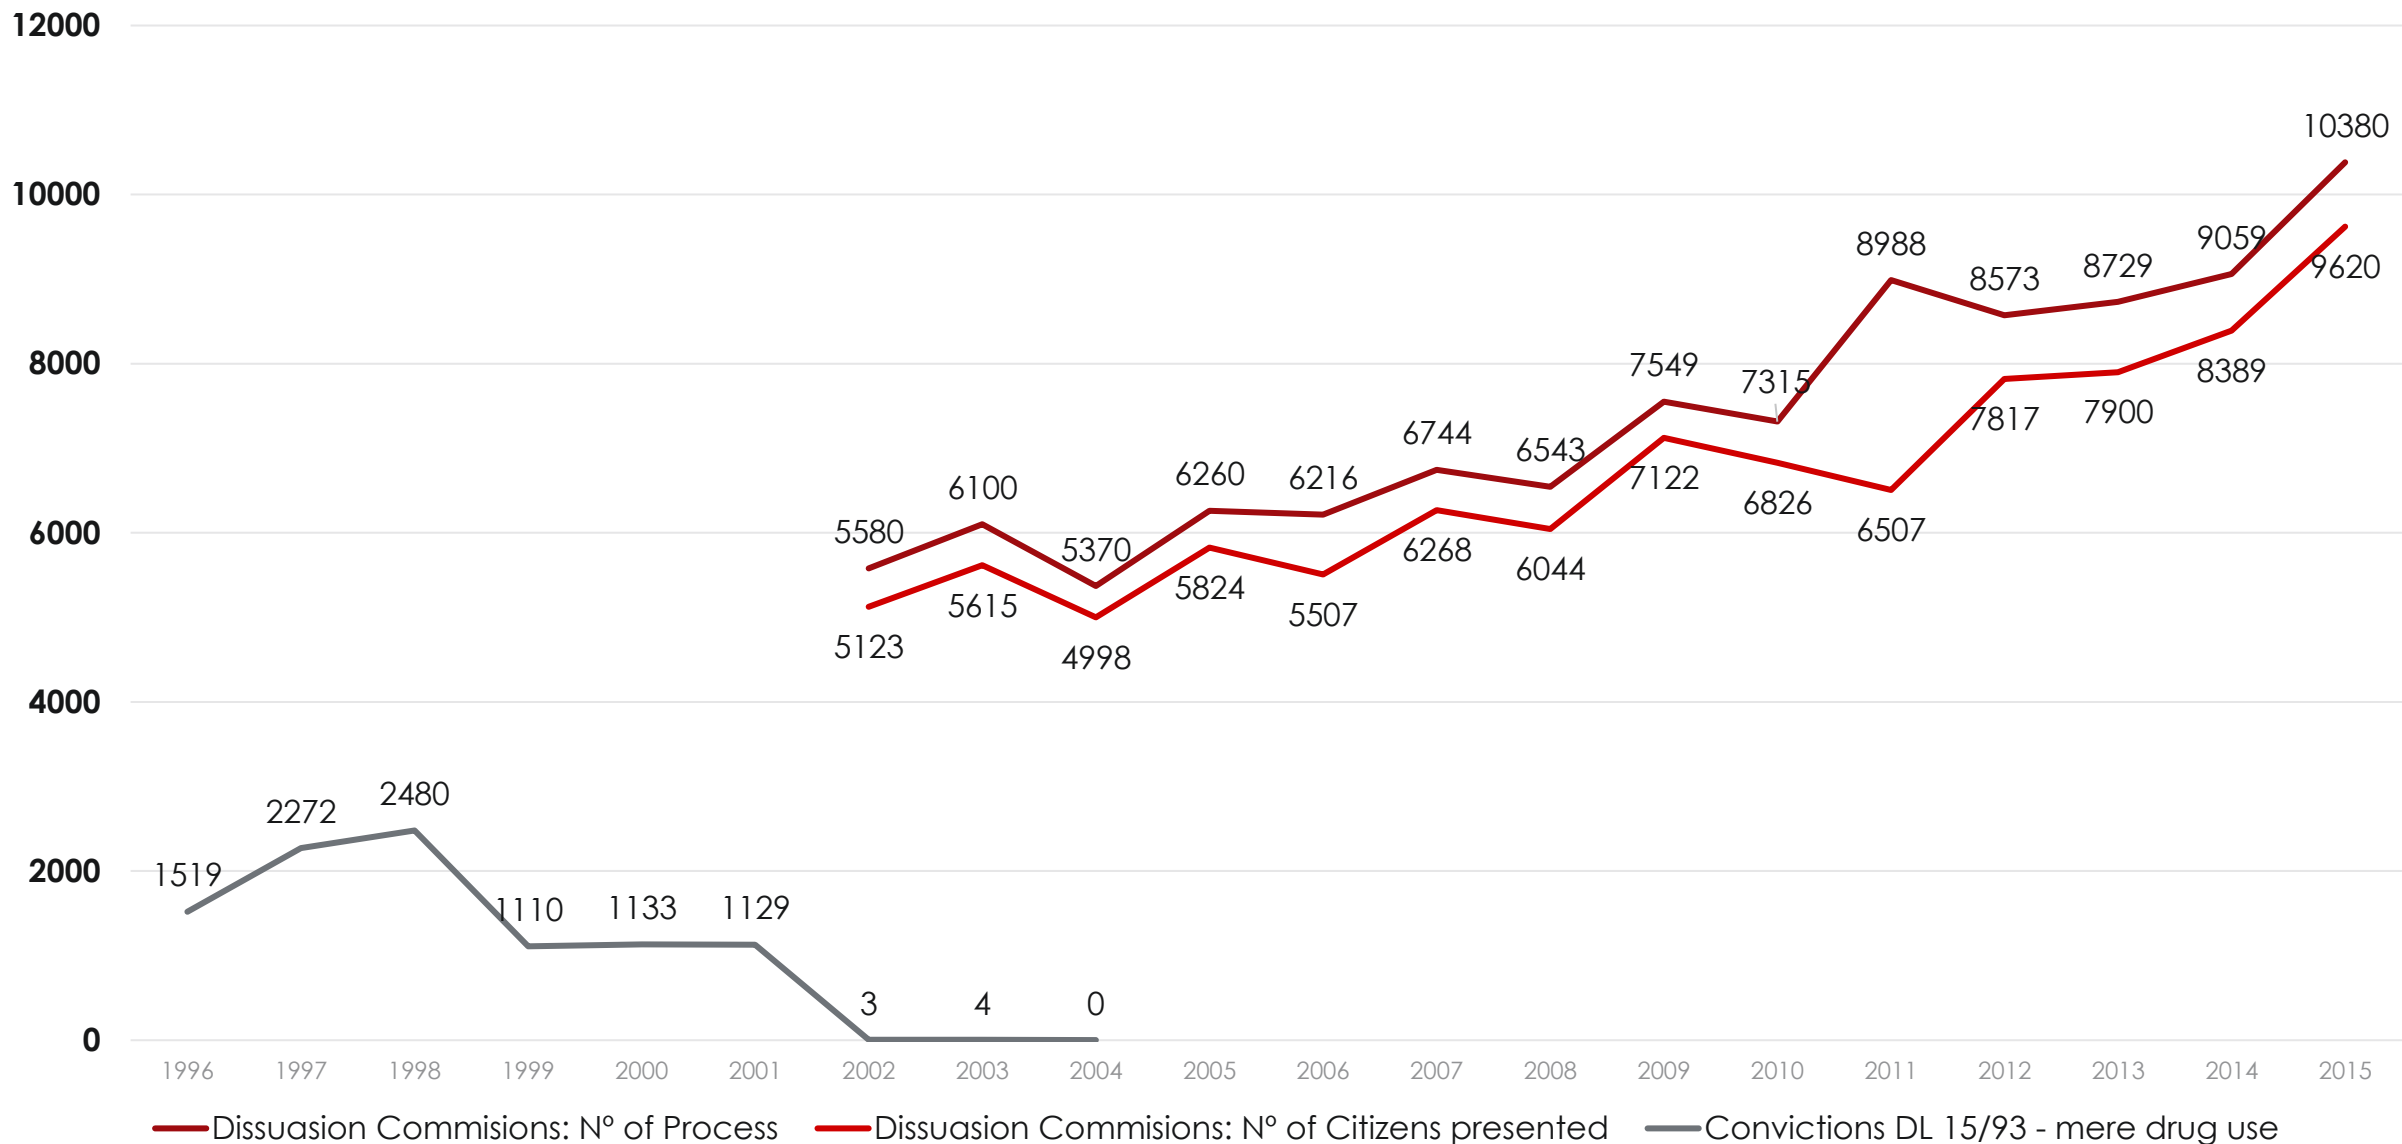

2019

- Heroin : average street price = 24,25 €
- Cocaine: average street price = 32,53 €

Enforcement of legal provisions: DL 15/93 vs Law 30/2000: Law enforcement agencies' work

Effects of Law 30 / 2000 in drug users subject to Judicial vs. Dissuasion Interventions

GLOBAL CONCLUSION

There is a coherent articulation among
ALL THE PORTUGUESE POLICY AND ACTIONS
based on the idea that a **DRUG ADDICT** is a **PERSON**
with treatment needs
instead of a
“CRIMINAL or a DELIQUENT”.

Until now, the global drug situation in Portugal seems to have a positive evolution in all the available indicators

Thank you

Domingos Duran
