

END INEQUALITIES. END AIDS. GLOBAL AIDS STRATEGY 2021-2026

PCB Special Session

24 March 2021

End Inequalities. End AIDS

Global AIDS Strategy 2021-2026

The Global AIDS Strategy aims to end the inequalities that prevent progress to ending AIDS.

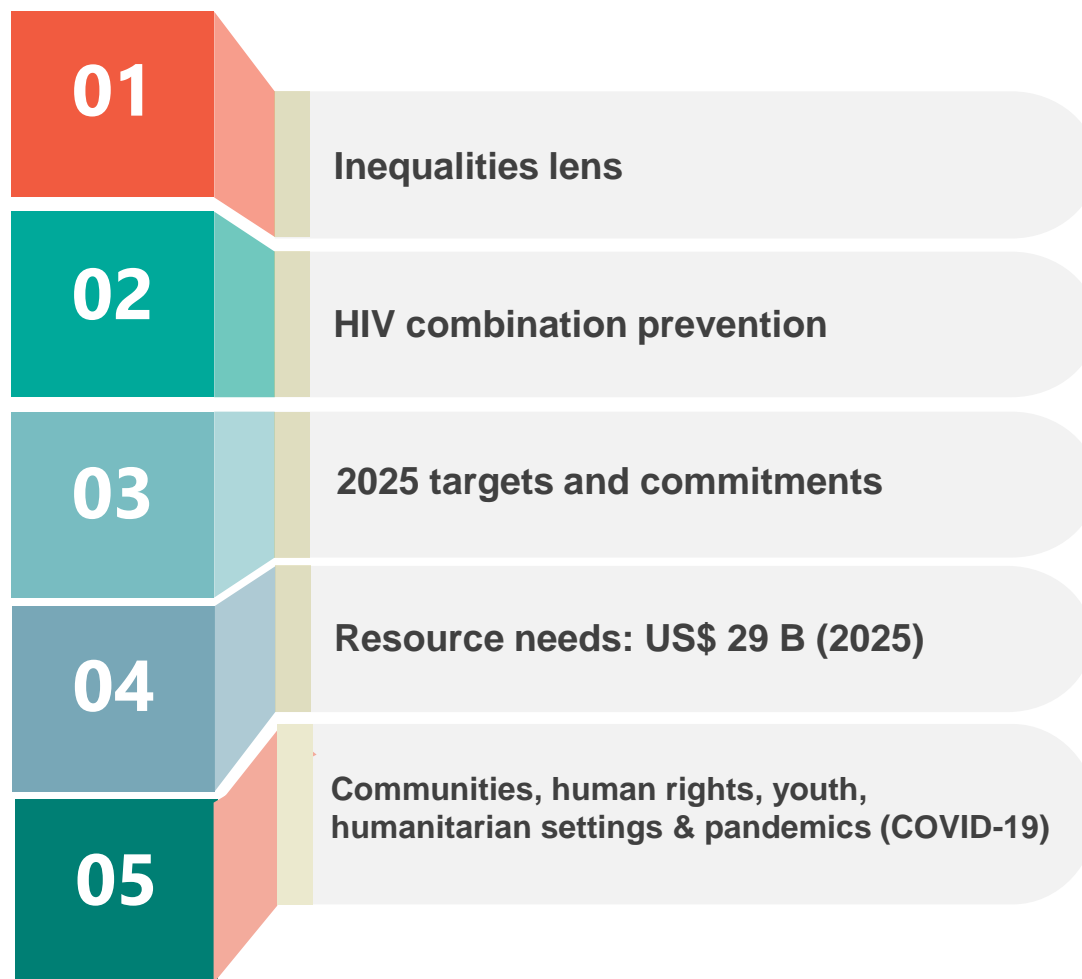

The Strategy features new bold targets and evidence-based actions for 2025 to get every country and every community on-track to end AIDS as a public health threat by 2030.

Global AIDS Strategy 2021-2026: What is New / Prioritized

Global AIDS Strategy 2021-2026: Framework

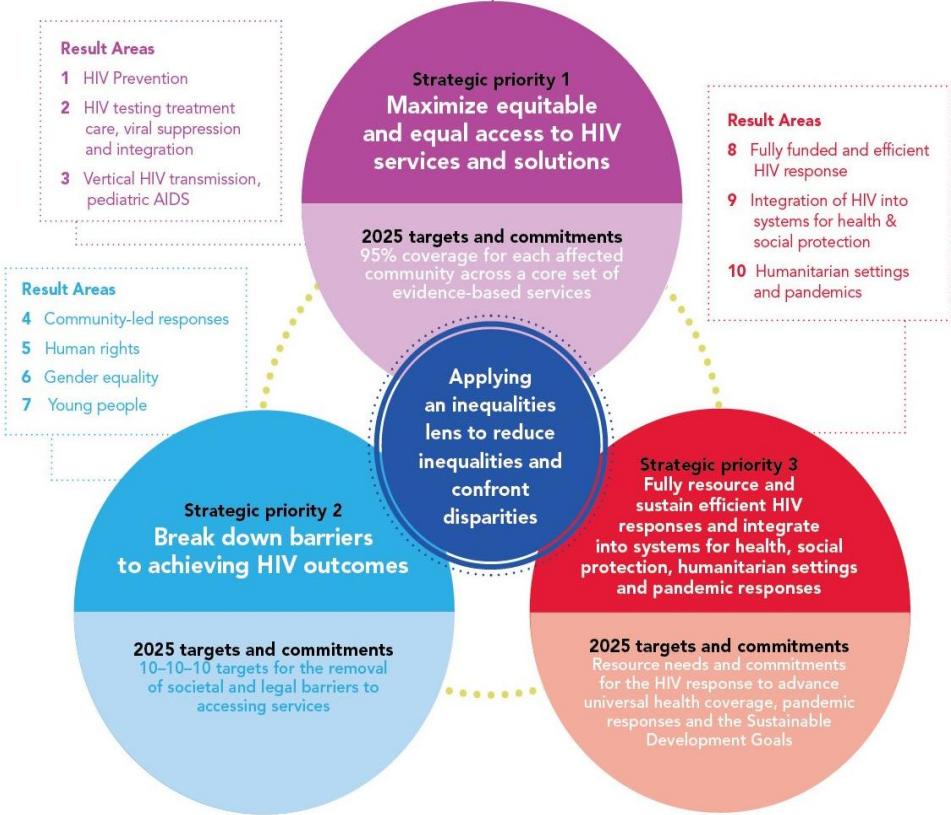

Sustainable Development Goals

Vision

Zero discrimination
Zero new HIV infections
Zero AIDS-related deaths

End AIDS as a public health threat by 2030

- Cross-cutting issues**

<ol style="list-style-type: none"> 1. Leadership, country ownership & advocacy 2. Partnerships, multisectorality & collaboration 	<ol style="list-style-type: none"> 3. Data, science, research & innovation 4. Stigma, discrimination, human rights and gender equality 	<ol style="list-style-type: none"> 5. Cities, urbanization & human settlements
--	--	---

Impact of Reaching the Strategy's Targets and Commitments

Reaching the 2025 targets will reduce new HIV infections to **under 370 000 in 2025**

Projected Impact of Reaching the 2025 Targets on new HIV infections

Reaching the 2025 targets will reduce AIDS-related deaths to **under 250 000 in 2025**

Projected Impact of Reaching the 2025 Targets on AIDS-related deaths

This degree of success in the HIV response will put the international community firmly on-track to end the AIDS epidemic in all settings and for all populations by 2030

Thank you!
