

# I am a prisoner. I face these issues.

I have to share a  
needle to inject  
drugs because they  
are banned

There is no  
methadone so I  
started injecting  
drugs again

There are no  
condoms and  
lubricants in  
prison

I am very sick  
but I cannot see a  
doctor

My HIV treatment has  
stopped since coming  
to prison

I was gang raped  
when I first arrived  
in prison

There is lots of  
unprotected sex in  
prison but nobody  
cares

20 of us are  
locked in the  
same cell for  
hours  
each day

I sold sex to feed  
my children. No one  
looks after them while  
I am here

I have been  
locked up for  
months without a  
trial

I am forced to  
have sex to  
protect myself  
from violence

I am worried  
about my safety

I do not know my  
rights and I don't  
have a lawyer
